ASTROLOGY AND ACQUISITION OF IMMOVABLE PROPERTY

Astrology in old India occupied prime place in the hearts of the people in the land as the only science of human understanding. They had reached dizzy heights in this subject as records reveal. They had a complete understanding of the essence of time in relation to the individual and the universe around him and built up a predictive method of uncanny accuracy which was passed on, from age to age, by **guru-sishya parambara** by word of mouth. This continuity was broken at later times and consequently we were completely deprived of the prophetic utterances of our great personages in this field. Due to the protracted efforts of the late Prof. Krishnamurti and the research scholars around him, many impurities accumulated in middle ages and unwarrantably added into their texts by omitting true principles taught were removed by and by and presented in a codified manner. The conventional Indian Astrology having nothing in common with the best methods for which the **ancient** savants were renowned and having become sterile and useless is waiting to be given a decent burial. Why ? Because it lost sight of the **luni-solar** concept of nakshatras and its innumerable parts and substituted it stealthily with undesirable and useless things. Astrology's growth can be ensured only by careful cleansing of the dirt of unscientific knowledge.

I was called upon, in the latter half of 1983, to prepare a correct chart of a child using the scientific method of casting adumbrated in KRISHNAMURTI PADHDHATI which I did by consulting the best reference book of Prof. S. Balasundaram, his UNIVERSAL TABLES OF HOUSES, and the excellant 10-year

MAHABALA PLANETARY EPHEMERIS. The chart I made is presented for discussion here.

Birth date: 18th September 1983

Time of Birth : 9 - 10 a.m. Indian Standard time shown by the watch

Place : Coimbatore, long. $76^{\circ} - 58'$ East and $11^{\circ} - 00'$ North

(A) Birth Horoscope :

VI 15-13	VII 14-31	VIII 13-50 Rahu 26-34	IX 12-48
Fortuna 24-09-28 V 13-49		Nirayana Rasi Ayanamsa (K.P.) $23^{\circ} - 31'$	X 12-34 Mars 29-05 Venus 29-48
Moon 15-47-28 IV 12-34			XI 13-45 Merc. (Ret.) 26-16
III 12-48 Nept. 2-58	Ketu 26-34 II 13-50 lira (R) 12-04 Jup. 11-14	Asc. 14-31 Sat. 8-46 Pluto 4-35	Sun 1-09 XII 15-13

Balance of Moon Mahadasa (major period) in Vimshottari Mahadasa :
5 years 7 months 26 days.

The heavenly connections forged between children and their parents are also revealed from a reading of their respective birth maps in astrology. From a perusal of innumerable horoscopes of individuals, we have also been led to believe that the birth time is correct if the planets conjointly ruling the lagna point have, in some manner, such relationship with the Moon. For this, the Moon's location by sign nakshatra, sub etc. and the

aspect it receives from others are taken into account. The sub and inter lords of the **lagna** are very material for the purpose. The truth of this deduction has been verified.

In the chart taken up for dealing here, Rahu, **Ketu** and Venus have been observed to control the lagna point as nakshatra, sub and inter portion. Rahu is in Venus sign Rishaba and **Mars'** nakshatra Mrigasira, Ketu is placed in the sign of Mars and the nakshatra of Mercury. Venus, on its part, is in the sign of the Moon and nakshatra of Mercury. Venus is also **rapidly** conjoined with Mars in Moon's sign and both are in Saturn's sub in excellent trinal or 120° aspect with Ketu, Mars and Venus are found, by aspect, to have connection with the Moon and **Saturn**. The planets coruling the cuspal point on the lagna have thus established, according to the KP scheme, connection with the Moon, thus confirming the correctness of the time of ushering in of the child.

[Although, according to Astrology's dictum, heredity is not the only factor leading to birth but an important factor which determines the biological make up of a person, it has been seen that there is a correlation **between** the birth sky of a child and that of his parents. Birth ensues, as Astrology avers, because every person comes into the world physically only at such lime when the cosmic conditions concur with the child's predetermined karma. The vehicle for such expression is provided by the parents who are destined, by their own individual **karma**, to inherit only such a child at that time, thus creating a sort of earthly interconnection between **them**. In fact, the inseparable bond of relationship must have been laid right at the time of coition and conception nine months earlier for birth

(B) Cuspal house positions in detail :

Cusp of House	Located in Zodiacal part of planet controlling			
	Sign (rasi) (Nirayana)	Asterism (Nakshatra)	Nakshatra - sub	Nakshatra - Inter
I	Thula (Libra)	Rahu	Ketu	Venus
II	Vrischik (Scorpio)	Saturn	Rahu	Mercury
III	Dhanus (Sagittarius)	Ketu	Mercury	Jupiter
IV	Makara (Capricorn)	Moon	Rahu	Saturn
V	Kumba (Aquarius)	Rahu	Mercury	Rahu
VI	Meena (Pisces)	Saturn	Jupiter	Saturn
VII	Mesh (Aries)	Venus	Venus	Jupiter
VIII	Rishaba (Taurus)	Moon	Rahu	Mars
IX	Mithuna (Gemini)	Rahu	Mercury	Mercury
X	Kataka (Cancer)	Saturn	Mars	Mercury
XI	Simha (Leo)	Venus	Venus	Moon
XII	Kanya (Virgo)	Moon	Jupiter	Moon

(C) PLANETARY SIGNIFICATIONS

Planet (or) House	House(s) ruled				Houses occupied	Placed in the zodiacal part of planet ruling

(R) = Retrograde (Vakra gathi)

itself is only the outcome of the act of impregnation. It must be borne in mind, however, that the root cause of birth is not physical heredity alone as may be wrongly supposed. Were it so, really speaking, why are all persons not being able to satisfactorily account for wide differences between children born of the same parentage ? And if the heredity factor is exaggerated out of all proportion, it holds good only for the present life and not for future births in every case. As the discoveries of modern science have themselves testified, the cosmic rays from the distant stars and planetary bodies apparently affect heredity too even creating new species.

Conception being the generation of human seed of which the birth is the finished product, astrology has always held strongly to the belief in the existence of an inter-relationship between the former and the latter, provided by the interchange of the places of the ascendant at epoch and the Moon at birth and, likewise, of the Moon at epoch and the Ascendant at birth. This will throw many possibilities, as to what connection the Moon at birth (corresponding to the lagna point at epoch) has with the mother's birth chart, for instance whether her chart points a clue to the Moon longitude of the child and many such factors. The lagna stands for the child in question in his early days and this corroborates that the 9th house represents one's father because the lagna becomes the 5th reckoned from the 9th denoting him; can we apply this maxim to the 5th house from the 4th (the 8th) which indicates her and see what connection it bears to the Moon? Taking this horoscope, it is found that Venus, Moon, Rahu and Mars corule the 8th cusp. Venus and Mars are in Moon's sign with Mars aspecting the Moon in Saturn's sign and Moon's nakshatra and Saturn in Venus sign and Rahu's nakshatra. This requires to be tested in many other charts. Theoretical enunciations, however, must be constantly tested on

the touchstone of practice and accepted only when proved. Quoting from this book and that can go on for endless years but such knowledge is not coupled with wisdom. Wisdom comes only from practical application alone.

An examination of the subs of the 4th house and of the 9th which have to do with the mother and father shows Rahu and Mercury respectively as such lords. Rahu, in the chart illustrated occupies Mars nakshatra. It was explained that mother's nakshatra was Mrigasira of Mars and of the father's nakshatra was mentioned as Mercury. This point also requires to be probed more closely so that there is clarity beyond the shadow of all doubts.

What struck me immediately after the map was made by me was that before the end of Satum bhukti in the Moon's mahadasa the family of this child must acquire a ready built house. To this prediction, the grandfather of the child commented that there was no such idea in their mind at all as they already have a house in their possession. What however happened was that they purchased a house, as exactly predicted by me, in January 1985 when the dasa was of the Moon, the bhukti of Saturn and anthara of Jupiter was in force and thanked me for my outstanding prediction.

Coming events cast their shadows before, as the wise rightly say. On first glance, I noticed that the Moon was lord of the 4th by nakshatra and it was seen in the 4th house almost near the cusp of the house. Satum who also ruled the 4th was no doubt in the 12th. the main house for expenditure or investment, but in its exaltation with aspect from Mars from Kataka, a Moon sign again. Saturn is controlled by Rahu as the nakshatra lord and by Jupiter as the lord of the sub as well as inter portion. Jupiter is

almost near the 2nd cusp in Saturn's nakshatra and Moon's sub (**Saturn** and Moon have strong 4th house connection and also ruled the bhukti and dasa running). The 4th was co-ruled by the Moon, Rahu and Saturn and the 12th was presided over by the Moon, Jupiter and the Moon again as the nakshatra, sub and inter lords in that order. Expenditure shown by the 12th, in the final analysis, comes only through the planet posited in the nakshatra of Saturn in 12. Jupiter is the **only** planet stationed in the nakshatra of Saturn, lord of 4 in 12. It is almost an axiom in KRISHNAMURTI PADHDHATI that the so called dus sthanas 6, 8 and **12**, even when tenanted by so called **malefics**, are not unable to offer desirable results if posited in the nakshatra, sub, inter etc. of planets beneficial to the chart under consideration. Saturn is in 12 but in Venus sign, Rahu's nakshatra, and Jupiter's sub and inter divisions. Venus is in the 10th, Rahu is an agent of Venus by being placed in **Venus'** sign all alone in Mars' nakshatra, and Jupiter is powerful by standing near the 2nd house. In KRISHNAMURTI PADHDHATI scheme, a planet in the nakshatra of another is stronger than the latter to affect the former's house affairs. So, Jupiter was stronger than Saturn, lord of **4 in 12**.

KRISHNAMURTI PADHDHATI is clearcut in its precepts and practices. How can it afford to **fail** by following true principles ?

EVENTS IN PROFESSIONAL CAREER : HOW STELLAR ASTROLOGY PINPOINTS

Everyone has to engage in some calling in order to establish his place in society and achieve social status or to earn a livelihood. The tenth house in any individual's chart the trigon of houses consisting of the 10th, 2nd and 6th represent the temporal status of the native embracing his actions, honour and **credit**, business or professional standing and position in society (10th), the service rendered by him, his health comforts and subordinates (6th), and money earned by such personal effort (2nd) shows the focus of that individual's external situation in society, indicating his place as expressed in the keyword 'honour*'. It represents goodwill, general or established credit, and every possible manifestation of honourable condition among men together with all efforts to establish prestige. It also designates authority — the power established by **the** successful individual in building a high degree of personal integrity, or in developing a superior professional place for himself, but it is no less the social compulsion to which the specialist as well as everyone else must submit. The 10th designates all those in authority over the native, that is to say, those who issue orders to which the individual must conform, not only superiors placed above him in rank but also the sociopolitical **entities** for which they speak, that is the Government, the corporations or business concerns. This mansion also identifies vocation which is **frequently** the result of the individual's ambition and is the determinant, to a great **extent**, of his social status.

Vocation is not, however, determined from the 10th house alone. The 2nd and the 6th houses have also some 120 degree or trinal relation in regard to this matter. The sixth house indicates the degree or phase of worldly attainment conceived to arise from native's own work or labour or from servants or persons employed by him or those placed in positions subordinate to him. Its keyword is 'service' ruling as it does 'work' and 'toil' of all sorts. In so far as an individual subordinates himself to anything, whether it is a person or an ideal, his activities are identified here. Labour or work, properly speaking, is movement towards an achievement in social status. The sixth-house service, most certainly, is of a voluntary kind rendered for a consideration, that is done with a motive such as wages or commission. The sixth house has been found to have its primary rulership over the adjustments that must be made by each individual as he creates his social place in life or as he works to maintain or improve it. This not only indicates the process of readjustment as such, but the need for it, or maladjustment in general, so that the sixth embraces every activity in which anyone participates as a conscious misfit

The 2nd house reveals the potentials of the native's general social position, being the house of finance. It shows the native's state of riches or poverty. Of all tangible things, money is probably the most spiritual or social, since it is the most general or universal medium of community experience. It is necessary to fulfil all our lawful pleasures. Money does everything and everyone needs it, even those who despise it. "It is not money that is the root of all evil", as a wise man puts it, "but the love, the excessive selfish, covetous love of money".

The 2nd is also related to trade or business dealings. The 2nd house, thus, has as much connection with an individual's vocation as the other two, namely the 10th and the 6th. And so, in considering matters concerning occupation, the houses 2, 6 and 10 should be associated and considered in combination. In accordance with the principle which lays down that the bhava which stands in twelfth (vijaya) to any bhava tends to destruct the affairs falling within the latter's purview, the 5th and 9th houses which become the twelfth reckoned from the 6th and the 10th would seem to show changes in conditions of service such as transfers, spells of absence from the work place and so on. If the 3rd house, which is the twelfth to the 4th representing one's home or residence, is also involved, it may necessitate change of residence and change of place along with transfer to a new surrounding.

In analysing a horoscope for ascertaining the time when one will enter into employment or get advancement or change from one position to another a gainful, it is essential to consider the various houses connected in combination. Not only the planets who signify these houses by lordship or sign occupation should be taken into account but also all those who tenant their constellations, the latter being even more important than the former according to the findings of the author of Krishnamurli Padhdhati. More than all, the cusps of these houses need to be paid special attention, the planets presiding over these as lords or co-lords such as nakshatra, 'sub', 'inter' (or sub-sub).

The horoscope of a person who was once placed in employment under government is presented below with the purpose of acquainting the readers with the way the stellar

astrological method enunciated in the masterpieces known as 'Krishnamurti Padhdhati' and how accurately it minors the Course of events in the career history of the possessor of the chart.

I: Birth Details

Place of birth : $9^{\circ}52' \text{ North}/78^{\circ}7' \text{ East}$

Time of birth : 1.21 a.m. (LMT) or
1-38-32 a.m. (IST)

Date of birth : 2/3-4-1923.

Book Ref. Universal Tables of Houses

@ by association with Venus in the same sign and by aspect from Jupiter

SS Rahu is not only in Sun's sign all alone but is also in Sun's star and sub. **Rahu** is thus a powerful agent of the Son.

IV. Planets co-ruling the cusps

<i>Cusp of house</i>	<i>Sign lord</i>	<i>Star lord</i>	<i>Sub lord</i>
II	Saturn	Rahu	Jupiter
VI	Mercury	-	»
X	Venus	„	Mercury
V	Venus	Moon	Rahu
IX	Mercury	Moon	Rahu
III	Jupiter	Saturn	Mars

The Sub-lord of the 10th cusp is Mercury. It is the 6th sign lord, placed in the 3rd and in the constellation of Saturn, lord of

∴ The lord of the constellation tenanted by the lord of **the sub** on the cusp of the 10th not only aspects the 6th house but is also himself the **6th** lord. The sublord of 10 Mercury, is also conjoined with the Sun, chief governor for **profession**.

i

Every house embraces certain affairs and these are activated when the conjoint period of planets related to the house operates in due time as per Vimshottari dasa and when the ephemeral transits at that point of time work in harmony. A friendly or **benefical** planet to an individual can render help only when his period ensue in Vimshottari dasa etc. Similarly a planetary foe cannot render harm unless its period, **subperiod** and so on operates for that individual according to his birth indication.

According to the **middle-time** Indian astrological texts, a **bhava**'s prosperity is inferred from the bhava lord, the planets associated the bhava lord, the planets aspecting it, the planets actually posited in the bhava, the planets aspecting **the bhava**, the planet ruling the navamsa occupied by the lord of the bhava and so on and so forth. In the crystal clear scheme of **Krishnamurti Padhdhati**, the method of reckoning the planetary signification is clear and simple and follows a set pattern free from any ambiguity. The main finding of Krishnamurti Padhdhati is that planets promote not only the affairs of the houses signified according to their sign **lordship**, occupation or aspect but also **those** of the houses signified by occupation and ownership by the lord of the constellation tenanted. In addition to **all** these, every planet has a singular significance related to the matters of that house over which it has control by virtue of **co-ruling** **that** house cusp as lord of the 'nakshatra', 'sub' and

'inter' etc. In this view, Krishnamurti Padhdhati enumerates the principles for ascertaining the signifiers of a house as follows:

- A) Planet tenanted in the nakshatra of the occupant of the bhava.
- B) Planet is posited in the bhava in question.
- C) Planet tenanting the nakshatra of the bhava sign lord.
- D) Planet tenanting the nakshatra of the bhava star lord.
- E) Planets owning the bhava by sign and nakshatra on the cusp.
- F) Planets conjoined with or aspecting the signifiers and/or the bhava.

The nodes, Rahu and Ketu, affect not only the bhava occupied and the bhavas signified by the lord of the constellation tenanted but also those owned by the planet they are in association with or those signified by the planet in whose sign they are placed without any association. The proof of the pudding is in the eating, as they say, and the principles of the Padhdhati have been proved right whenever applied to various horoscopes.

Applying these principles to the horoscope illustrated, the various signifiers are :

2nd House : Saturn governs this mansion, and Mercury is situated in one of Saturn's nakshatras. Ketu and Venus are stationed here with no planets in any of their nakshatras. Jupiter from the 10th aspects the 2nd house as well as Ketu and Venus there.

6th House : There is no planet found here. Its lord is Mercury in whose constellation Sun is placed. Jupiter from

the 10th and Saturn from the 9th aspects the 6th house.

10th House : The tenth is occupied by Jupiter and owned by Venus. Jupiter and Ketu are in Jupiter's nakshatras, with no planets in Venus nakshatras. Of course, Ketu is conjoined with Venus.

5th House : This Segment is under the governance of Venus. There are no planets in this part and no one in Venus' constellations.

9th House : Saturn occupies this house which is owned by Mercury. Moon is also in the 9th. Mercury is seen in Saturn's nakshatra and Sun in Mercury's. Rahu is Sun's agent being in Simha all alone, and also in Sun's star. Sun also occupies the 3rd. Rahu also receives aspect from lord of 5, Venus, so that Rahu is a strong signif i cator of the 9th as well as the 5th.

3rd House : Sun and Mercury tenant this mansion. Rahu is in Sun's star and Sun itself in Mercury's. Jupiter who occupies this is also its owner, and Ketu is in Jupiter's star and is also aspected by Jupiter.

The native took up employment for the first time when the dasa of Jupiter, bhukti of Ketu and anthra of Jupiter was running. On the day of entry into service - 12-6-1947, Thursday ruled by Jupiter dasa and anthra lord, the Moon was transiting the 2nd house in Jupiter's star in conjunction with Ketu, bhukti lord and in trine (120 degree) to the radical position of Jupiter. Mercury, lord of the 6th was transiting the 6th house, the Jupiter's star and sub in trine (120degree) aspect to both Jupiter and Ketu radical. Sun was transiting the constellation of lord of 11, Mars, and sub of Jupiter placed in 10th at birth, in trine 120 degree to natal Jupiter as well as natal Ketu. (As the Sun was lord of the 8th, an evil house, at birth, its inharmonious aspect should be

favourable. Lord of 2, **Saturn**, then transited in its own star in Kataka in trine 120 degree aspect to the radical position of Mercury, lord of 6, as well as to the cusp of the 11th at birth. **What** is more important, the dasa and anthra lord was in retrograde motion in transit as at **birth**, but Jupiter ws conjunct his **radicalposition** and was in its own star and sub of Ketu, bhukti lord. At birth, both Jupiter and Ketu were in harmonious trine aspect and by transit also Jupiter formed the same aspect to Ketu. Bhukti lord, Ketu, transited the 10th house in the constellation of lord of 2, Saturn, and sub of lord of 10, Venus.

On 2-8-1948, a day ruled by the Moon, the person was transferred on promotion. He was then undergoing Jupiter dasa, Venus bhukti and Moon anthra. Jupiter and Venus are occupant and **ownerrepectively** of the **10th**house. **Moon** is associated with Jupiter in the same sign and is in close trine aspect with Venus, lord of 10, and the cusps of the 6th house and the 2nd house. Besides, the Moon tenants the nakshatra of Rahu (Star lord of houses 2, 6 and 10. Venus, bhukti lord, is also placed in Rabu's nakshatra. Moon is the asterism lord of house 5 and 9 and is also a signifier of the 9th by occupation. So, Moon's anthra saw the transfer of the person along with the promotion involving rise in emoluments and status. By transit, the dasa lord Jupiter was retrograding in the 11th house in the star of Mercury, lord of 6, and Jupiter's sub. Bhukti lord as well as lord of the 10th, Venus, transited in Rahu's Star trine to its natal position and Moon's. Bhukti lord was also in conjunction with anthra lord. The Sun transited the sign of anthra lord, Moon, the star of lord of 2, Saturn and sub of Jupiter.

On 10-7-1960, when the gentleman was running the conjoint period of Saturn, Mercury and Rahu, he was promoted for a second time. The dasa lord, Saturn, owned the **2nd**and was placed in the constellation of Mars, lord of 11, at birth. The

bhukti lord, Mercury, ruled the 6th and was stationed in the constellation of lord of the 2nd and the dasa, Saturn. Again, both Saturn and Mercury were in the sub of anthra lord, Rahu, at birth. It must be emphasized here that Rahu was the constellation ruler of the cusps of the 2nd, 6th and 10th at birth and by dint of this connection Rahu becomes a powerful signifier of houses 2, 6 and 10.

By transit, the dasalord, Saturn, was in the constellation of the 10th lord, Venus and the sub of Jupiter, an occupant of the 10th. Transiting Saturn was in trine aspect to the transit position of Mars, lord of 11, and within the orb of trine to the radical Rahu's position. The bhukti lord, Mercury, was transiting through the 6th in the dasa lord's constellation. The anthra lord, Rahu, was conjunct his natal position by transit, wherefrom it was within the orb of trine to transiting Saturn as well as transiting Mars, lord of the 11th at birth. In this case again, as at the time of entering into service, the Sun is in evil aspect to the dasa lord, Saturn. At the same time the Sun is also sextile, a beneficial aspect, to Rahu, anthra lord. The subject of aspects is interesting and has eluded many lending astrologers. Some hold that the square and opposition are evil, others hold that it is not so much the quality of the aspect the produces influences, favourable or otherwise as the sign from which, and the planet by which, the aspect is made. In practical horoscopy, I have found that the square, quincunx and apposition are by no means unfavourable, and also that strong aspects (all multiples of 30 degree) are exciting influences. In the present case, the Sun transits in the 6th, a connected house, in the star of Jupiter occupying the 10th and in the sub of Mercury, lord of the 6th, in conjunction with the 10 lord. Venus, the 10th lord was transiting the 6th in the constellation of Jupiter placed in the 10th in the radix.

On 19-6-1964, the native was transferred. At that time, the dasa of **Saturn**, the bhukti of Venus and the anthra of Mercury was in operation. The dasa lord, Saturn, was a signifier of the 9th at birth by occupation. Venus ruled the 5th, the twelfth to the 6th, and occupied the constellation of Rahu, agent of a planet placed in the 3rd. Mercury signifies the 9th house by lordship and the 3rd house by occupation. No wonder in the conjoint period of Saturn, Venus and Mercury the event of transfer materialised. Remember also that the planets co-ruling the dasa, bhukti and anthra periods were lords of 2, 6 and 10 by sign.

By transit, the dasa lord, Satum, was in its own sign, constellation of Rahu and Saturn's sub conjunct the radical position of Venus, bhukti lord. Lord of 3 and 12, Jupiter, transited the star of Venus, bhukti lord, and sub of Saturn, dasa lord, in the 4th house. The transfer involved change of duties and place. Both the bhukti lord, Venus and anthra lord, Mercury, transited through the 5th house, both these planets in harmonious trine aspect to the planets placed in the 9th at birth-Venus to Moon and Mercury to Saturn. Venus and Mercury, it may be remembered, ruled the 5th and 9th houses at birth.

On 20-6-1966, the native was transferred back to his original position. He was then running the dasa of Satum, bhukti of the Sun anthra of Satum. The Sun was a signifier of the 3rd and 9th houses at birth, the former by occupation and the latter by constellational position in Mercury's stars. The Sun at birth was also aspected by Saturn from the 9th.

By transit, the dasa lord was in its own constellation and sub of Mercury, lord of 9. The bhukti lord, Sun, transited the 5th house, square to the transiting position of the dasa lord.

On 10-6-1967, during the dasa of **Saturn**, bhukti of Moon and anthra of Jupiter, the person was again transferred. **Saturn** and Moon are occupants of the 9th and Jupiter ruled the 3rd at birth.

By **transit**, **Saturn** was in the constellation of the 9th lord, **Mercury**, and in **Mercury's** sub in the sign of anthra lord, **Jupiter**. **Moon**, bhukti lord, transited **Jupiter's** constellation **Punarvasu** in conjunction with **Mercury**, lord of the 9th. **Anthra lord Jupiter** was in the sign of bhukti lord and the star of dasa lord, by transit.

On 1.10.1970, during the conjoint period of **Saturn Rahu-Saturn-Jupiter**, he had another marked rise in career. The dasa lord transited in retrogression in harmonious aspect to the bhukti lord, **Rahu's** natal position. The bhukti lord, **Rahu**, transited the sign of dasa lord and its own star and sub in trine to the radical 10th cusp. **Lord of the 6th, Mercury**, transited over the radical position of bhukti lord, **Rahu**, in trine aspect to the transiting position of the dasa lord. The **Moon** transited the radical position of the dasa lord, **Saturn**, in **Mars'** star. **Jupiter** was exactly over the cusp of the radical 10th house in **Rahu's** star. Significantly, the 10th lord transits in the 10th itself and over the radical position of **Jupiter**.

The person had promotion again on 28-3-1973. At this lime, **Saturn**, **Jupiter** and **Mercury** co-ruled the vimshottari period as dasa, bhukti and anthara lords respectively.

Saturn, dasa lord, transited the asterism (constellation) of lord of the 10th, **Venus**, and the sub of **Saturn** and in mutual aspect with **Jupiter** in the 10th house. Transiting **Jupiter** was in conjunction with **Mars**, lord of the 10th and was himself aspected by transiting **Saturn**. **Mercury** had just then turned direct, by transit of course, and it was in the dasa lord's sign and the bhukti

lord's nakshatra and sub. On its part, the Sun transited the natal position of the lord of the 6th, Mercury, the lord of the anthara, in dasa lord's nakshatra and bhukti lord's sign in trine (120 degree) to the radical 11th cusp. The lord of the 10th bhava, namely Venus, too transited the dasa lord's star in the bhukti lord's sign.

The foregoing discussion serves to show the complete validity and truth of the principles of the stellar theory lucidly expounded in Krishnamurti Padhdhati book series available with Messrs. Krishnamurti Publications, Madras as also the other invaluable books available with them. Years back, I was about to give up astrology as of hopeless value when, even after a patient and persistent study and analysis of the astrological scheme taught in the numerous Indian traditional texts (apparently) incorrect middle-time interpolations of true astrological sayings learnt by people, centuries after century from their preceptors who, in turn, got them from sages of yester years by word of mouth spread over 25 years or more, my predictions failed both as to the nature and time of events. At this juncture, by a quirk of benevolent fate, I had the privilege of bumping unexpectedly on the distinguished scholar Prof. Balasundaram at New Delhi who kindled my flagging interest and lighted the torch in me, truly speaking. From then on, I had evinced greater and greater interest, thoroughly studying and applying only the principles of KP for predictive purposes and found it yielding, surprisingly, about 80 to 85 percent success as against barely 15 to 20 percent achieved earlier by me by recourse to traditional ways. I am gratified, no doubt, by the results obtained by using the Krishnamurti Padhdhati astrological method, but still these are less than enough. As a

research scientist myself, I should endeavour to advance KP still further and see the loopholes in the predictive art still remaining to be plugged. Relentless zeal and effort are called for in the direction of perfecting and enriching the soil of stellar astrology further for the benefit of human kind. No science is ever fully perfect at any stage, astrology being no exception, but while all other sciences advance as a consequence of relentless research done day in and day out, would it be prudent on our part to allow the divine science of stellar system known as Krishnamurti Padhdhati to stagnate and eventually wither away merely for want of sustained research efforts on the part of KP scholars ? Certainly not

OUTCOME OF TAMILNADU ASSEMBLY AND PARLIAMENTARY ELECTIONS

Elections to the state Assembly of Tamilnadu and Indian Parliament are scheduled to be held in last week of May 1991 and all are watching with interest as to which party would form the Government at the centre and in our state. In this context, we were furnished with the birth details of Ms. Jayalalitha, the supremo of AIADMK by an AIADMK follower. Though we could not vouch for the birth time, the ruling planets worked out for the time of analysis of the chart and some of the past events of her life testify to the accuracy of the birth time. Hence, an analysis is made based on this chart as to the scope of her electoral victory. At the outset, we would like to stress that we have no bias for any political party and this analysis is purely in the academic interest of our followers. The birth details, as stated, are as follows:-

Venus 21-56 X 12-5	XI 15-13 Rahu 24-54	XIII 16-56 Ura. 29-5	Lagna 16-27-55
Sun 11-38 DC 10-29 Merc. (R) 2-48	Bom: 28-2-1948 at 14-15 Hrs. (IST) at Madras Lat: 13N 4' Long 80 E 17 Balance of Ketu Dasa 3 years 7 months 0 days		II 12-18 Sat (R) 24-59

X		:	Saturn	Moon	Uranus	Mars	Saturn
XI		:	Venus	Venus	Neptune	Moon	Mercury
XII		:	Moon	Saturn	Fortuna	Ketu	Saturn

In, the horoscope erected for study by me, the lagna sublord, Venus, is in 10 in exaltation in her congenial sign, Pisces (Meena). Lagna sublord in such a high position always assures high status in life. Ketu, her nakshatra lord, deputises for Venus as it is in the sign of Venus (Thulam). Venus is in the star of Mercury associated with Sun, the sublord of Venus.

Her 5th lord, Venus is in 10 indicating correctly her status as popular cinema star, as indicates cinema, drama, opera, entertainment etc. Venus in the star of Mercury in 8 and Ketu in 5 indicates her break with the cinema line and switching over to

politics. 5th house indicates politics and the position of Venus also confirms her entry to politics. Sublord of the 5th cusp, Ketu deputises for. Venus in 10 indicating leadership, and Ketu is also in 5 showing clearly her career as a movie artist and politician of fame. Ketu is in the star of Jupiter in 6 indicating success in these lines, as Jupiter is in his own house, aspecting the 11th, the house of success, and the lords of 2 and 11, the houses of finance and net gains. Jupiter indicates that she has to contend with strong enemies in her political life. Sub lord of the 10th cusp, Moon, is in semi-square with Neptune in Kanya, a planet for cinema career. Moon is also aspected by Jupiter. Lord of 7 (fine arts). Moon is in the star of Ketu in 5 (cinema) and sub of Rahu in 11, denoting grand success as it represents Mars, lord of 6 and 11 in 3. Rahu connects all the upachayasthanas in one stroke, due to its placement in the star of Venus in 10.

For a successful politician, houses 1, 2, 3, 5, 6, 9, 10 and 11 should be well fortified with the planets Mars, Mercury, Jupiter, Venus and Saturn being well connected with them. In this chart, Mars is lord of 6 and 11 in 3. It is in the star of Ketu in 5, acting for Venus in 10. Mercury, the winged celestial messenger, is lord of 1 and 4 in 8 but in the star of Mars, discussed above. Jupiter is lord of 7 and 10 in 6 in the star of Ketu in 5. Venus is lord of 5 and 12, in 10 in the star of Mercury in 8 and in the sub of Sun, lord of 3 in 9. Saturn is lord of 8 and 9 in 2 in the star of Mercury in 8 but in the sub of Rahu in 9. Hence, except Venus and Saturn which are weak, almost all other planets are placed strongly showing successful political life.

She is now running the Vimshottari Dasa of Mars and Bukthi of Mercury from 31-3-1991 to 26-3-1992. Mars in the star of Ketu in 5 (acting as an agent of Venus in 10 and in the sub of Venus well posited) promises a highly favourable period. Though bukthi lord Mercury is in 8, it is in the star of Mars and sub of Venus. As elections are going to be held during this bukthi, this lady is destined to come out victorious in the **electrol** battle ahead. She is likely to witness the resounding victory of her alliance in the impending poll, if we take cue from the position of Fortuna. She will form the Government in the state.

She has already suffered a vehicle accident in February 1990 during Saturn bukthi, Saturn anthra in Mars Dasa. **Saturn**, as lord of 8, in the star of Mercury in **8** has caused this accident. Since **the** sublord Rahu is in 11, acting on behalf **of** Mars, lord of 11 in 3, show **escaped** with some injuries. Mars is aspecting her **lagna** sub **lord** Venus as well as her 6th house, the house of injuries. Her **8th** cusp starlord is Moon without any planets in her constellation, thus being a strong **significator** of houses 2 and 8 Moon is in association with Mars in 2. Sublord of 8th cusp, Rahu is in the beneficial 11th house receiving the aspect of benevolent Jupiter but he is in the constellation of Venus and sub of Mercury. Both Venus and Mercury are receiving the aspect of Mars. Venus **is** also in the constellation of Mercury **in** 8. These formidable combintions indicate accidents and even attempts on her life. In this context, the position of Uranus in 8 from **AIM** Lagna and Neptune in 12 (the house of treachery and deception) are important. Even now, recently, it was reported in the press that her vehicle used for election propaganda was damaged due to and accident. Mercury, lord of 4 , indicating vehicles, in the

star of violent Mars in a fiery sign is the cause of this type of mishaps in her life till Mercury's bukthi is over. Hence it is advisable to take utmost care during her vehicular journeys.

MISMATCHED MARRIAGE CAUSED BY MALEFIC MERCURY

The niceties of KP. are brought to the fore in the case of the tragic marriage of a youngman and I would like to dwell on the principles of K.P. for denial of a smooth married life in this article. The unfortunate youngman, who is well-mannered and was strictly a bachelor till his marriage, was bora on 9-2-1954 at 8-40-0 Hours I.S.T. in Badula (Sri Lanka) Lat 6° N 59' & 81° E 5'. In this age when sexual morals are very loose with younger generation, this youth was meted out a cruel treatment by fate though he was not contaminated by the vices of sex till his first night. I knew him for the past four years and he also has some knowledge of traditional astrology and he also analysed the horoscope of his would be wife and compared it with his own chart besides the astrologers who showed green signal for this marriage. But it is an undeniable fact that when bad time is running for a person, he will not be able to contact an astrologer and get proper advice to ward off the evil impending. This proved to be correct fully in his case. Though he wanted to meet me and discuss about the marriage alliance, he did not do so as I was away from Coimbatore at that time and till the marriage was over, I had no news of it at all. But, alas, he lived with his newly wedded wife for about 2 months only. He could not tolerate her manners and way of thinking and he found her most incompatible with his wavelength of thinking. According to him, she was highly materialistic and had an overdose of sexual urge, which was abominable to him. Hence she left this youth about 2 months after marriage, taking all her jewels. The horoscope of the male, cast through K. P , it as follows :-

Lagna 3° 44' 18"	n 7° 14' Moon 10° 39'	III 7° 14' 25" 'Jupiter 23° 18'	IV 4° 22' 44" Uranus 26° 47' Ket. 29° 32'
Mercury 13° 45' 5" XII 0° 37' 59"	KP. Bhava Chart Ayanamsa 23° 7' 11"		V 1° 16' 44"
Ven 29° 10' Sun 26° 44' XI 1° 16' 44"			VI 0° 37' 58"
Rahu 29° 32' 30" X 4° 22' 44"	IX 7° 14' 25" Mars 6° 31' 21"	Sat. 16° 10' VIII 7° 16' Nep 2° 53"	VII 3° 44' 18"

Lagna — Saturn star, Saturn sub :

7th Cusp — Sun star, Saturn sub.

7th Lord Mercury — Rahu star, Mercury sub.

11th Cusp — Sun star, Jupiter sub.

Let us analyse the 7th cusp. It is in Sun star (lord of 6th) and Saturn sub (lord of 11 in 8). Though Venus is in 11, she is only 2° away from Sun, thus attaining combustion. Sublord Saturn in 8 aspecting Rahu and in the star of Rahu, thus being a strong signifier of 10 can cause such a havoc in marital life. 11th Cusp sublord Jupiter is in 3, in the star of Moon, 5th lord in 2. Moon in 2 is good but he is a strong signifier of 4 (being in the star of Ketu) and further the full malefic aspect of Saturn from 8 brings the influencible Moon under the control of Saturn. These are clear indications of the rough weather in conjugal life.

I had already indicated to my friend somewhere in 1987 that his marital life will not be a bed of roses.

The wife of this young man was born on **16-4-1965** at **6-6-0 Hours I.S.T.** at **9° N 58**, and **78° E 10'**. She is endowed with high educational qualifications and is born in Chithirai star in **Thulam** Rasi and Mesha Lagna. Her horoscope is as follows:

Mercury (R) 20° 4' 17"	Lagna 1° 20' 14" Sun 2° 33' 26" Ven. 3° 33' 50"	II 2° 34' 51" Jupiter 5° 18' 19" Rahu 23° 8' 54" III 29° 54' 44"	IV 26° 11' 41"
XII 26° 30' 42" Saturn 19° 55' 8"			V 24° 23' 32"
XI 24° 23' 32"	K.P. Bhava Chart Balance in Mars Dasa 1 year 6 months 3 days.		Mars (R) 15° 32' 55" Uranus (R) 17° 52' 58" VI 26° 30' 42"
X 26° 11' 42"	IX 29° 54' 44" Ketu 23° 8' 54" VIII 2° 34' 51"	Nep (R) 25° 59' 56" Moon 3° 18' 46" VII 1° 20' 14"	

Looking at the chart of the lady, I came to the conclusion that the birth time of my friend is wrong. It is not enough if the chart is erected strictly according **K.P.**, but the correctness of the chart should be **verified** with the help of sub lords of the various cusps, which are the unfailing indices of the fate. The Lagna sub

lord should be connected with the **Janma Rasi** and **Janma Nakshatra Lord**, by conjunction, aspect, stellar position or even by significant western angular aspects like trine, sextile, square etc. Thus the **Janma Nakshatras** of all blood relatives will tally when analysed in this manner with the sub lords. Similarly the 7th cusp sub lord clearly indicates the **Janma nakshatra Lord** and **Rasi lord** and sometimes the **Lagna Lord** of the partner. Though I use the method of **Ruling Planets** to correct the birth time of the person at the time of casting the **chart**, as the beginners in K.P. think it is not an easy job to fix the **Lagna** and other cusps with **Ruling Planets** alone. After checking the ruling planets of the close relatives, the life events, disease of the native or his parents, etc., should also be checked with the help of sub lords. In such an analysis, **lagna sub lord** may prove correct but the 7th Cusp may not respond to the **Janma Nakshatra** of the partner and in such cases, the birth times should be rectified and adjusted to tally. If the right sub lord on the relevant cusp is not caught, then the predictions will be off the mark. A person was predicted by me while analysing his chart that his recently born child would be having some deformity and he admitted it and narrated that the child's right hand had only two fingers and also it fell short of the normal length. When the child's chart was cast through Computer at Jupiter Astro-Computer Center, Coimbatore, the **lagna** was found to be **Cancer (Kataka)** and **Lagna sub lord** was **Mars** in 11 in the star of **Moon** in 11 also in exaltation. The **Mars** did not have any malefic aspects etc. The child was stated to be born at 2-20 p.m. and this time was given by the surgeon of the hospital, where the delivery look place. I altered the birth time to be 2-21 p.m. and the **Lagna sub lord** happened to be now **Rahu** in **Kumba**, in the 7th **Bhava**. Though **Rahu** is 7, as he is representing **Saturn**, 8th lord, such a congenital defect is possible only when born when **Rahu** is the **sub lord** of **Lagna**. Such minute analysis through sub lords is the sheet-anchor of K.P., which is

not available in any other system. To illustrate this type of analysis more in detail, let us take the horoscope of our Guruji K.S.K. His 7th Cusp sub lord is Moon situated at $7^{\circ} 52'$ in Capricorn, the Lagna being in 11° in the same sign. His wife was born in Jyeshta Nakshatra (Sign owned by Mars and star owned by Mercury). His Moon was in the sub of Moon in Mercury's sign. The connection is self-explanatory.

Analysing this way, for the birth time of my friend, the 7th Cusp sublord Saturn is not connected with Mars, the Janma Nakshatra Lord and Mars is also the Lagna, lord, thus making Mars the primary Ruling Planet of his wife. If the sublord of 7th Cusp is Mercury, then Mars is aspecting Mercury. Note that Mars is also lord of 2 (family) in 8th Bhava, though in his own sign, thus giving 9th house results also to some extent. One important point which strikes anyone accustomed to this way of analysis is that Mercury and Venus have no planets in their constellations. This has to be noted first in any KP. chart to assess the potency of planets. Now the fate of this young man is portrayed more aptly. Sub-lord of the 7th Cusp, Mercury is in 12 As Mercury is having no planets in its constellations, he is a signifier of 7 and now the rule that signifier of 7 also being signifier of 12 correctly indicates the havoc in marital life. Here the coincidence is that Mercury is also lord of 7 and thus doubly strong to offer 12th house results. As the signifier is in 12, it is my friend who is the cause of separation. Actually he asked her to go to her parents' home to allow him peace of mind. If the signifier had indicated 6, then his wife would have gone out in a huff. Whenever sublord of 7th Cusp is also lord of 7 and if there is no planet in the constellation of such a planet, then the position of this planet in 6, 12 or 4 or 10 will cause — separation.

Hence the birth time of my friend was altered as 8-45-0 Hrs. I.S.T. and the revised K. P. Chart is given below •—

<i>Planets</i>	<i>Star</i>	<i>Sub</i>
Sun	Mars	Jupiter
Moon	Ketu	Saturn
Mars	Saturn	Mercury

XI	Sun	Jupiter
XII	Mars	Ketu

I checked up with many life events. He is getting a substantia] salary, for his average education. The sublord of the 2nd Cusp is Jupiter in 3 in the star of Moon in 2 and in the sub of Sun in 11. Saturn's aspect to Moon may rise a doubt as to the inflow of the income, but this only indicates entanglement of money, arrears not being paid in time etc., Jupiter being lord of 10 (exalted in Navamsa) shows the receipt of income through salary. Sublord Sun is the star of 3 and 11th Cusp. His sublord of the 8th Cusp is Rahu, who is in the star of Sun (lord of 6) in 11. The position of Sun in 11 will save him from any accident. But whether there will be any accident in his life has to be checked and in this connection, the sublord of 8th Cusp, being a malefic, in the constellation of lord of 6 (injury to body, ailment etc.) is not good and hence he is destined to meet with some severe accidents. He admitted that he had one worst accident in which he narrowly escaped. Rahu is an agent of Jupiter in 3, which is again aspected by Mars from 8th. This confirms an accident in life. With reference to his job, he is connected with exploration of oil in the sea and for the time 8-40 a.m. the sublord of 10th Cusp Moon,whereas now the sublord is Mars. As he is

to check and maintain the electrical installations in the place where he works, Mars correctly indicates the department he works. See that Mars, strong in his own and watery house, posited in the star or Saturn (oil) and sub of Mercury (far of places). He is regularly going to his work place which is about 1000 miles from his residence and perhaps due to the sublord Mercury in an airy sign, he goes by flight for his job and returns home by the same mode of conveyance. The aspect of Mars, the sublord to Mercury indicates the line of his duties (electrical work). See that 10th lord Jupiter is also getting the aspect of Mars from a watery sign. He is virtually floating on the ocean throughout a month.

According to this revised chart, the mischief of 7th Cusp sublord Mercury was analysed above. Further this Mercury is also in the star of Rahu in 10, which is again aspected by Saturn, as lord of 11, from the evil 8th house. Mercury strongly signifies 7, 12 and 10 which are all detrimental to the smooth marital life.

The lady's Moon is in **Libra-Thulam** and that of the male in Mesha. This is what is known as **the** Sama-Sapthama position, according to traditional system, a configuration showing beautiful mental agreement between the partners. When many poruthams do not agree, if there is Sama-Sapthama, the lack of agreements are compensated by the **Samasapthama** alone. If the poruthams are analysed, most of them agree and even those not agreeing come under the exception of Sama-Sapthama and thus they also agree. But see the effect of Sama-Sapthama!

Let me digress here to the German system of Astrology called Mid-Point System, propounded by the famous German Astrologer Herr Ebertin. His system is known for the half-sums i.e., adding the planetary longitudes or sensitive points **like** Lagna **and** 10th Cusp and dividing them by two. The resultant

degree is called the midpoint of the two longitudes. For instance, instead of the usual Lagna, we can take the longitude of Lagna and 10th Cusp, add them and divide the sum by two. This is known as Ascendant/Meridian or A/M Lagna, a subsidiary Lagna from which we can analyse the chart as we do usually. In practice, this A/M lagna offers brilliant results which are not visible in the usual analysis. In this chart, Lagna in the revised chart is $355^{\circ} 10' 52''$ and 10th Cusp is at $245^{\circ} 31' 38''$. Adding the two, we get $600^{\circ} 42' 30''$. Halving this amount, we get the A/M Lagna at $300^{\circ} 21' 15''$ or $0^{\circ} 22'$ Kumba. Now we can analyse the chart. If this is to be analysed in K.P., then the cusps of the other houses should be found out for the Lagna $0^{\circ} 22'$. Otherwise mere star positions of planets will indicate the events to a good extent. See as per this analysis that the Lagna Lord Saturn is in 9 in exaltation in the star of Rahu in 11. 10th Lord Mars in a watery sign in his own sign in domal dignity. According to this analysis, 7th lord Sun is in 12 with Venus, lord of 4 and 9. Venus is from Sun by $2^{\circ} 26'$ only, and thus her combustion at the hands Sun is really effective. Though it is said that Venus and Saturn do not lose their powers on account of combustion, I find in practical experience that the karakatwa and the matters denoted by Venus suffer to some extent. Here she is the kalathrakaraka and a general indicator of marital happiness. The combustion seems to have really worked. In analysing the chart with A/M Lagna, only the traditional rules should be applied as mentioned by Maharishi Parasara. But analysis through Placidian or Topocentric method of House Division with A/M. Lagna should be given a fair trial — extensively to come to definite conclusions.

In the methods of Herr Ebertin, he used only Lagna and the 10th Cusp (Meridian) and no other houses were recognised. He recognised multiples of 45° aspects as having great powers

to ignite some results, depending upon the nature of the planets involved in such aspects, without considering the planets involved in such aspects, without considering the ownership of them. But I find that considering the ownership of planets pays rich dividends. For instance, in his system of Mid-Points, **Mars/Saturn** indicates death and grievous injuries etc., and I find that for one person born in **Simha** Lagna, when Jupiter crossed this point in his chart, he got married, because Saturn is lord of 7 and Mars, lord of 4 and 9 (auspicious events).

Now coming to the topic of poruthams, Mr. Herr Ebertin has devised a system known as **Contact Cosmogram**, with a disc with 90° circle to see the suitability or otherwise of two parties intending to get married etc. In this disc the 45° aspects, which are known as hard-angle aspects, are seen clearly and it is easier to find out which planets are in 45° aspects with others. But if a circle is drawn and explained, it may not be easily — comprehensible for the readers, particularly for those who are not acquainted to this method of interpretation by circular diagrams. Mr. KM. Kharegat, the late celebrated Astrologer, who explained this method, took the liberty of slightly altering the Circles into liner graph lines. As the aspects are multiples of 45° like 45, 90, 135 and 180, the 360° Zodical circle of our usual chart should be reduced to a 45° Zodical circle. For this, he gives the following advice :—

1. If a planet is in **aries** (**Mesha**), **Cancer** (**Kataka**), **Libra** (**Thulam**) or **Capricorn** (**Makara**), the actual degree held by the planet is to be retained.
2. If a planet is in **Taurus** (**Rishaba**), **Leo** (**Simha**), **Scorpio** (**Vrischika**) or **Aquarius** (**Kumba**). Then if the degree of the planet is less than 15° , add 30° and if more than 15° then subtract 15° from it.

3. In the remaining four signs, uniformly add 15° to the degree of the planets found in it

I will illustrate with the example chart of my friend. His Sun in the natal chart is at $20^\circ 44'$ in Makara. As it is in Makara, no modification is needed. Next take Moon. It is in $10^\circ 42'$. As it is in Mesha, no modification of the degree held by it. Coming to Mars, it is at $6^\circ 31'$ in Vrichika. As per the rules of Ebertin, as Mars is having its degree, less than 15, add 30° and thus its revised or new degree = $36^\circ 31'$. Mercury is at $13^\circ 45'$ in Kumba, hence its degree also becomes $43^\circ 45'$. Rahu is at $26^\circ 32'$ and as per the rules, 15° is to be added, hence its new degree becomes $41^\circ 32'$. If you work out the new degrees for all the planets, they are as follows for the young man (on the left hand side) and for his wife (on the right hand side):—

<i>Male</i>		<i>Female</i>			
Sun	=	$26^\circ 44'$	Sun	=	$V\ 33'$
Moon	=	$10^\circ 42'$	Moon	=	$3^\circ 19'$
Mars	=	$26^\circ 31'$	Mars	=	$0^\circ 33'$
Mercury	=	$43^\circ 45'$	Mercury	=	$35^\circ\ 4'$
Jupiter	=	$8^\circ 18'$	Jupiter	=	$35^\circ 18'$
Venus	=	$29^\circ 10^*$	Venus	=	$3^\circ 34'$
Saturn	=	$16^\circ 10'$	Saturn	=	$4^\circ 55'$
Rahu	=	$44^\circ 33^*$	Rahu	=	$go\ 9'$
Uranus	=	$41^\circ 47'$	Uranus	=	$2^\circ 53'$
Neptune	=	$2^\circ 54'$	Neptune	=	$26^\circ\ 0'$
Lagna	=	$20^\circ 11'$	Lagna	=	$1^\circ 20'$
MC	=	$20^\circ 32'$	MC	=	$41^\circ 12'$

(10th Cusp)

Now if a scale is taken and allowing 1 inch for 5 degrees and a line is drawn for 8.5 inches for 45_s and the new degree are

plotted on it marking the planets also, then you get one person's chart in this new method ready for analysis. Similarly draw another line below this and note the new degrees of planets beneath this line, while the new planets' position are noted above the first line for male. The contacts between planets assume significance in this method and the meanings of the contacts are given by Mr. Herr Ebertin in his book "**Combinations of Stellar Influences**". The contacts between Venus and Uranus, Neptune, Saturn, Mars etc., are unfavourable. Similarly the MC or Lagna of one party should not have any contact with malefic planets of the other. For instance, the contacts between the planets in our two example charts are as under

<i>Female</i>		<i>Male</i>
Sun and Uranus	=	Neptune
Moon and Venus	=	Neptune
Rahu	s	Jupiter
Neptune	=	Sun
		(note the interchange)
Mercury and Jupiter	=	Mars
MC	=	Uranus

Most of the contacts are bad. There is not even one good contact indicating amicability and lasting love between the partners. Neptune always stands for cheating, disappointment, illusion, mystery, drugs, drama, dreams, crooks, tricksters etc. Note Sun (individual) of female is in contact with Neptune of the male and Neptune of the female contacts the Sun of the male, with an interchange. Moon and Venus also of the female contact Neptune of the male. Rahu's contact of Jupiter is the only moderately good conduct. Rahu signifies sexual union, union with other persons, blood relations partnership, friendship,

courtship and things where a team-work is involved. The Mercury and Jupiter of the female contact the Mars of the male, which is bad. Again the M.C. (10th cusp) of the **female** contacts the **Uranus** of the male. Uranus is the karaka for sudden changes and actions, revolution, reforms, anarchists, revolutionists etc. Mr. K. M. Kharegat makes a subtle **distinction** between the Ascendant and M.C. The former represents personality, environment and relations with others by a person and the M.C. signifies the individual I, ego consciousness and the aim in life. But the ascendant or Lagna is **the** person as others see him or the personality he has presented to others in **society** but the M.C. is the person is really in his inmost being. Hence the contacts of MC are very important and see the MC of the female contacts Uranus of the male, igniting a sense of revolt in the mind of **the** husband.

I would like to **emphasize** here that the new planetary positions that are meeting at the same point **make** 45° aspects. Such experimentation with new methods of prognostication are really rewarding.

Whether my friend will have two marriages is to be probed now. He was married on 7-9-1989 around 10 a.m. when he was running Moon dasa, Venus Bukthi and Venus anthra. Moon is lord of 5 in 2 (family) in the star of Ketu in 4, representing Mercury, lord of 7. Moon is **Saturn** sub in 8. Though Saturn is in 8, he is aspecting 2 and is in **the** star of Rahu, an agent of Jupiter, who is a strong signifier of 2 (family), and II as there is no planet in the constellation of Jupiter. Venus is in the constellation of Mars, 2nd lord in 9th sign in his own house. 7-9-1989 is a Thursday, ruled by Saturn's star Anurada. Venus was in the sign Thula in the star of Mars (2nd lord) and sub of Mercury (7th **Lord**).

K.P. lays down that there are two or more marriages for a person, when the sub lord of 7th Cusp is Mercury and/or posited in the star of Mercury or a planet in the star of Mercury or a dual sign and also when the 7th cusp sub lord is a signifier of 2. The second condition **is** most often given the go-by by many KP. followers. So it is more important **that** the second condition is satisfied to have two marriages. Here the 7th Cusp sub lord is Mercury and he is in the star of Rahu and sub of his own. Mercury is aspected by Mars, lord of 2. Rahu is an agent of Jupiter, who is the sub lord of 2nd cusp. Hence this indicates a second marriage. 2nd Cusp sub lord should also be probed in this aspect. It is Jupiter in the constellation of Moon, lord of 5 in 2. If this sub lord is appreciably connected to **11 only**, then it indicates a keep and not a legal wife. Hence my inference is that he will love a lady known to his family already and marry her again.

TIME OF MARRIAGE - HOW STELLAR ASTROLOGY EFFECTIVELY EXPLAINS ?

I. Introduction

Marriage signifies the unison of two souls together. Years pass after marriage, but still the sweet memory of the first day of conjugal meeting lingers on. Honey-moon is in ever green memory even in old age. Astrology must record this sweet experience and must be able to say when the happy time of marriage will come in the life of a man. Krishnamurti Padhdhati records this aspect of life with more accuracy than any other astrological system extant in the modern times. How truly K.P. reflects the event is illustrated here.

6. Saturn	6	5	12	23	6	11,12
7. Jupiler	7	10,1	6	11,12	2	4,7
8. Ketu	7	10,1	2	4,7	7	10,1
9. Venus	6	11,12	12	23	1	6
10. II Cusp	1	6	7	10,1	7	10,1
11. VII Cusp	2	8,9	6	11,12	12	23
12. XI Cusp	6	5	2	4,7	12	23

Note :- Rahu deputises for Sun due to its occupation of Leo sign, ruled by Sun ; Similarly Ketu represents Saturn as it is in Aquarius, a sign ruled by Saturn.

III. Analysis

Marriage means an addition to the family, hence the second house steps into Consideration. Conjugal relationship is denoted by the seventh house.

The 7th also rules contractual relationship. The 11th house indicates permanent tie of friendship. Marriage includes all these three. Hence let us consider the houses 2, 7 and 11 together.

The second house is occupied by Mercury and Mars. Mercury governs Ashlesha, Jyeshta and Revathi. Mars governs Mrigasira, Chitrai and Dhanishta. No planet is in the constellations. So let us analyse the lord of the second house. Venus is lord of 2. Venus governs Bbarani, **Pooram** and **Pooradam**. Rahu is in Pooram and Sun is in **Bharani**. Take Rahu and Sun.

The seventh house is occupied by Jupiter(R). A retrograde planet delays; hence delay in marriage is indicated. Jupiter governs Punarvasu, Visakam and Poorvapathra. Jupiter in Visakam and Ketu is in Poorvapathra. Take Jupiter and Ketu.

The eleventh house is not occupied by any planet. Saturn is lord of 11. Saturn governs Pushyam, Anusham and **Uthrapathra**. Only Venus is in **Uthrapathra**. Take Venus.

Therefore Rahu, **Sun**, Jupiter, Ketu and Venus are the significators for marriage of this native.

Of all these planets, Rahu, being a node is very strong more so because it has assimilated single handed the effect of all the three houses to be judged for marriage. How ? Rahu is in sign of Sun a signifier for marriage. Moreover it is in the constellation of Venus, lord of 2, who is a strong signifier, being in the constellation of lord of 11, especially when there is no occupant of 11th Bhava. **Rahu** is further in **the sub** of Mercury, occupant of 2 and lord of 7 and in the sub sub of Jupiter, who is occupant of 7th Bhava and a signifier, because of its position

in Visakam, a constellation ruled by itself. Hence it is deduced that Rahu is very strong and that the native will be married in Rahu Dasa. The longitudinal distance between Sun and Rahu is $131^{\circ} 28'$ which is applying sesqui-quadrate (135°) ; therefore Sun will not co-operate with Rahu in giving the effect of marriage. Similarly the longitudinal distance between Rahu and Ketu is 180° , which amounts to opposition, and which is decidedly bad ; hence Ketu also will not co-operate with Rahu in their conjoined period to give the effect of marriage. (Please refer to 1 Reader—Casting the Horoscope, page 112 ; Evil aspect among two planets who are the signifiers of the same matter do not co-operate—join hands to give a particular effect). The longitudinal distance of Venus and Rahu is $166^{\circ} 26'$, hence good ; therefore it will co-operate with Rahu in giving good effect, especially when both are the strong signifiers for marriage.

The native ran the Dasa of Rahu from 18-9-1943, but marriage materialised only when Venus Bhukti ran from 6-4-1955 to 6-4-1958. Only Venus is in the sub sub of Rahu and Rahu is in the constellation of Venus ; hence it can be easily deduced that Venus will co-operate with Rahu to give the effect of marriage.

The marriage took place on 22-5-1956, when the native was running the Dasa of Rahu, Venus Bhukti, Rahu Anthra and Rahu Sookshma. Rahu came thrice' because of its strong influence. The day was ruled by Mars, occupant of 2 in the radical chart. On this day Sun was transiting Krithikai, a constellation ruled by Sun, who is a signifier for marriage. Moreover it was trasiting in 2nd Bhava from the radical chart.

Moon was transiting Swathi, a constellation ruled by Rahu, a strong signifier for marriage. Moreover it was also transiting in the 7th, Bhava from the radical chart. The marriage began in Sagittarius ascendant, ruled by Jupiter, a signifier for marriage ; it lasted upto Aquarius ascendant. at the peak point of marriage (12 midnight), Ascendant was rising in Capricorn $28^{\circ}15'$, which is again 11th Bhava from the radical chart. Then thereafter ascendant also transited Sathayam constellation, ruled by Rahu.

Hence the accuracy of Krishnamurti Padhdhati in regard to pinpointing the date and time of marriage is verified.

WILL I BORROW ?

It was on 6-9-1990 morning when a bosom friend of mine peeped in. I received him and when at ease, he narrated his problem. He wanted to book a house in Lucknow Development Authority. He was running penniless these days whereas the last date for registration was only upto 8-10-1990. Within this date he had to manage registration fee i.e. either Rs. 30,000 or 20,000 or 10,000 for HIG/MIG/LIG bouse respectively. He had innate longing to book a H.I.G. House, for which he intended to borrow the sum i.e. Rs. 30,000 from either of his three friends.

Since he wanted an answer in yes or no, I exploited Gulbarga Theory. He gave me No. 32 out of 249 for friend number one. 32 falls in Taurus, Moon Star, Jupiter sub. The ruling planets on 6-9-1990 at 8-59 a.m. at Lucknow were

Day	Lord	Jupiter
Ascendant		Libra, Mars star, Mercury Sub
Moon		Pisces, Saturn Star, Saturn Sub.

Here the sublord of 32/249 Jupiter is neither starlord of ascendant nor of Moon. Hence the answer was in negative - that I hold him.

For the friend number two, he gave me No. 157/249.

157 falls in Scorpio, Satum R Star, Jupiter Sub.

Ruling planet on 6-9-1990 at 9-13 a.m. I.S.T. at Lucknow.
were-

Daylord

Jupiter

Ascendant

Libra, Mars, Star, Venus Sub

Moon

Pisces, Saturn R. Star, Saturn R. Sub

Again, the sublord of 157/249. Jupiter was neither starlord of the ascendant nor of Moon. Negation was conveyed to him.

For third friend, he gave me number 115/249.

Ruling planets on 6-9-1990 at 9.19 A.M. I.S.T. Lucknow.

Day

lord

Jupiter

Ascendant

Libra, Mars, Star, Moon Sub

Moon

Pisces, Saturn R. Star, Saturn R sub.

This time too, the Jupiter could not happen to be either asc. starlord or Moon star lord. I told him the final negation.

A bit frustrated, he went back and emerged the very next day with a face, hovered by fresh air of expectations. He told that the thirty thousand repees loan from one person might be a heavy amount, so he had modified his query that time. Now his query was, shall I be able to borrow the sum i.e. 30 or 20 or 10 thousand rupees from any of the three persons.

The query was slightly complicated, hence I thought it better to cast a horary chart for which he gave the No. 204/249.

Moon 18.06 II 03.22	III 08.12	IV 06-22 Mars 09-33	V 00.18 VI 24.29

PLANET	STAR	SUB	CUSP	STAR	SUB
Sun	Venus	Jupiter	I	Mars	Mars
Moon	Mercury	Mercury	II	Saturn	Saturn
Mars	Sun	Venus	III	Ketu	Jupiter
Mercury	Venus	Saturn	IV	Sun	Mercury
Jupiter	Saturn	Sun	V	Mars	Mercury
Venus	Ketu	Rahu	VI	Jupiter	Mercury
Saturn	Venus	Mercury	VII	Mercury	Mars
Rahu	Moon	Mars	VIII	Sun	Saturn
Ketu	Saturn	Moon	IX	Rahu	Rahu
Fortuna	Venus	Jupiter	X	Saturn	Mercury
Uranus	Ketu	Mercury	XI	Ketu	Ketu
Neptune	Venus	Rahu	XII	Venus	Mercury

For analysis, I took the sublord of the VI cusp. It was Mercury. Mercury was retrograde which disappointed me at first

instance, but since it was quick moving of small planet that frequently became direct within 16 days, I proceeded. Mercury was lord of VIth the house of loans. Mercury was in the star of Venus. Venus gave results of 7,4,9 firstly, and being in Ketu star who conjoined with Jupiter, it also gave results of houses 6 (position) 2, 11 and 12 (cusp lordship) and 3, 6, 11 (cusp star lordship).

Required houses 2, 6 and 11 were signified, but as per K.P. sub decided. Mercury was in Saturn's sub where Saturn as lord of 1 and as starlord of 2 and 10 was tenanted in 12. Further, Saturn was retrograde and was about to become stationary and of September. Mercury was to take the direct course on 18.09.1990.

Mercury signifies correspondence, sending agent and borrowing in instalment. I told him that he would have to correspond or send agent and he might get the loans from more than one person because Mercury shows plurality. Again, Mercury being in Saturn's sub caused punarphoo, but since Saturn also signified 2nd cusp as starlordship, it favoured by getting the loans from one Saturnian too. Mercury showed that one or two Mercurian will give him the loans. About time, I told him that before 18.09.1990, he must correspond and after 24.09.1990, when Saturn would take a direct course, he might expect some favour. Also, I told him that Saturn's XII house signification would also bring its unfavourable result. He was off with some uncertain mood.

He visited me on 22.10.1990 in a gay mood. After thanking me he told that he had sent letters to all the three. The first one had not responded till the day, the second one had called him whose letter reached only after 18.09.1990 and the third one had sent a sum of ten thousand rupees on 28.09.1990 i.e. after

24.09.1990 when **Saturn** took a direct course. He visited the second one on 03.10.1990 who gave him ten thousand rupees on 06.10.1990. Thus, he had received twenty thousand repees, he easily got himself registered in L.D.A. for a **MIG** house on 08.10.1990. About the first one, who had not replied even after getting the letter, my friend snapped all ties with him by sending him a second letter.

It may be amazing as to how only the VI cusp sublord told all this ; but for an honest K.P. Student, this is very simple and easy thing.

SEVENTH HOUSE AND ITS SIGNIFICANCE

In July 1987, a friend of mine wanted to know when the marriage of his sister-in-law (his wife's cousin sister) would take place. I asked him to get a number between 1 and 249 to be given by the girl. He obtained the number 105 given by the girl, by post as she was slaying at her native place Vizianagaram.

Taking the number, I have prepared the following Horary Chart as per K.P. System (advanced stellar astrology) on 4-8-1987 at 1.03 p.m. at Hyderabad and predicted that her marriage would take place in March 1988.

VIII 28-19-43 Rahu 11-31-04	Jupiter 5-44-56 IX 29-19-43	X 29-19-43	XI 29-19-43
VI 29-13-20			Mer. 1-50-24 Venus 12-37-17 Sun 17-49-45 Mars 24-39-16 XII 29-19-43
V 29-19-43			I 29-13-20
VI 29-19-43	IV 29-19-43 Saturn (R) 21-07-22 Moon 6-52-33	III 29-19-43	Ketu 11-31-04 II 28-19-43

I have taken 2, 7, 11 houses for consideration, as the 2nd house **represents** addition of a family member, 7th house is the house of matrimony and 11th house is for fulfilment of her desire.

House position :-

Cusp	Star Lord	Sub Lord
I.	Sun	Rahu
II.	Mars	Saturn
III.	Jupiter	Sun
IV.	Mercury	Saturn
V.	Sun	Rahu
VI.	Mars	Saturn
VII.	Jupiter	Sun
VIII.	Mercury	Saturn
IX.	Sun	Rahu
X.	Mars	Saturn
XI.	Jupiter	Sun
XII.	Mercury	Saturn

Planetary Position :-

Planet	Star Lord	Sub Lord
Sun	Mercury	Mercury
Moon	Saturn	Mercury
Mars	Mercury	Rahu
Mercury	Jupiter	Rahu
Jupiter	Ketu	Rahu
Venus	Saturn	Mars
Saturn (R)	Mercury	Venus
Rahu	Saturn	Mercury
Ketu	Moon	Mars

A. *Significators*

2nd House

1. There are no planets occupied in the 2nd house.
2. Bhava Lord is Mercury.
3. Sun, Mars, **Saturn** are in the constellations of the Bhava Lord, Mercury.

7th House

1. Rahu is deposited in the 7th house.
2. There are no planets in the constellations of the occupant, **Rahu**.
3. Bhava Lord is Saturn.
4. Venus, Moon, Rahu are in the constellations of the Bhava Lord, Saturn.
5. The 7th cusp is strongly aspected by Mars by eighth sight

11th House

1. Mercury, Venus, Sun, Mars are the occupants in the 11th house.
2. Sun, Mars, Saturn are deposited in the constellations of Mercury. There are no planets in the constellations of the other occupants, Venus, Sun, Mars.
3. Bhava Lord is Mercury.
4. Sun, Mars, Saturn are deposited in the constellations of Mercury.

B. Ruling planets at the time of judgement.

1. Lagna Sign Lord	Venus
(Libra 27-00-10)	
2. Lagna Star Lord	Jupiter
3. Lagna Sub Lord	Venus
4. Moon Sign Lord	Mars
5. Moon Star Lord	Saturn
6. Moon Sub Lord	Mercury
7. Day Lord	Mars

Therefore Venus, Jupiter, Mars, Saturn, Mercury are the Ruling Planets. As Jupiler is not a signifier (directly) he is rejected and the Venus, Mars, Saturn and Mercury are the common planets in (A) & (B).

C. Judgement.

According to Krishnamurti Padhdhati if the Sub-Lord of the 7th cusp or The Lord of the constellation in which the Sub-Lord of the 7th cusp is deposited is the signifier of 2 or 7 or 11th house, marriage is promised.

In the present case. 7th cusp sub-lord, Sun is deposited in the 11th house in the constellation and sub of Mercury is also deposited in the 11th house and is the Lord of 2nd and 11th houses. Mercury is not only the occupant of the 11th house but also the lord of 2nd and 11th houses and posited in the sub of Rahu who is occupant of 7th house. Thus Mercury is the strongest signifier. So marriage is promised.

D. Timing of the event.

At the time of the judgement, the Dasa running is Saturn Dasa, Mercury Bhukti, Jupiter anthara upto 17-10-1987. As Jupiter is not a signifier, his Anthara period is not considered.

Next Saturn's Anthara which runs upto 20.3.1988 has been taken into consideration and it is predicted that the marriage would take place in March, 1988 as the transit of Dasa, Bhukti and Anthara Lords also agrees by that time.

Eventhough the Dasa Lord and Anthara Lords, Saturn is in retrogration at the time of judgement, he is a strong signifier of 2, 7 and 11 houses and is posited in the star of Bhukti Lord, Mercury who is another strong signifier of 2 and 11 houses and is in direct motion. Our guruji has pointed out emphatically that Saturn whenever he is a strong signifier, no doubt he delays and drag the matter but tends to take the credit for himself and gives fruitful results during his Bhukti or Anthara periods. This is found to be true in all predictions. In this case Saturn comes into direct motion from 20-8-1987 onwards and the marriage will take place after this date only.

The prediction came true and the marriage took place on 11-3-1988 and her parents felt very happy for my prediction as the girl was aged 30 years and they have seen many matches which have not materialised earlier and were worried about her marriage.

TWIN BIRTHS AND SIGNIFICANCE OF THE SUB

When we study twin births charts within a few minutes difference at the same place, a lot of difference will be recorded. The following case of twin births born at Jeypore on 3.1.1990 with a difference of 10 minutes whose birth charts are prepared. The lagna, the planetary position remain same in both charts but one suffered from ill health, the other passed away shortly after birth. Why is it so? A study of the following charts will reveal that the diametrically opposite effects experienced are due to the cuspal changes and the planet holding sway over cusps as sub lord.

Here I am furnishing the both the charts.

A comparative study of the two charts will reveal that the sub lords of the cusps of houses in the two births are different. Otherwise the horoscope especially the planetary position, the sign the lagna and other house cusps and constellations as the different houses are the same. As Moon position in birth charts has not varied very much, the Vimshottari Dasa, Bhukti and Antara in both the cases also remains almost the same.

ANALYSIS :

The sub lord of the ascendant in Chart 'A' is Venus, who is lord of **XIth** house, which is Bhadhakastana to (moveable sign borns) and stationed in **VII** the **marakastana**. So the sublord is evil to span of life, but the constellation **tenanted** by Venus is Moon and sublord is Rahu, the constellation lord Moon is lord of lagna in **IXth** house, and the sublord Rahu through occupant

in **VIIth** (Marakastana), but signifiator of **Vth** and **Xth** being occupant in Mars Star.

Hence **the** Venus signifying **the** houses **I** and **IX**, the sublord signifying **V** and **Xth**. The houses **I**, **V**, **IX** and **Xth** are very good for longevity, even though the Venus **Bhadhakastanadhipathi** in Marakastana is very bad, but here the Venus itself cannot give the results of **VII** and **XJ** as there are planetes in Venus Star. According to Krishnamurti Padhdhati the Planets will give results as per their stellar positions. Hence Venus is a **benefic** to the native, though the child is to suffer with so many complications, but he will survive.

Chart No. 'B'

- (i) The sign lord of ascendant is Moon occupant in **VIII th** house (a house of Danger) in the star of Saturn in **VIth** Disease and lord of **VIIth** death, and lord of **VIIIth**, all the 3 houses are detrimental to health and longevity and the lord of lagna Moon is in the sub sub of **Ketu** occupant in **IInd Marakasthana**. The Ketu being occupant in Leo, all alone, like **the** agency of Sun who has gone in **VIth** and conjoined with lord of **VII** and **VIII** Saturn. Here the signification of Sun also not good as Sun is tenanted in Venus star Rahu Sub, both are on **VIIth** cusp. Hence the sub lord Ketu in whose sub the lagna lord occupied is spoiled. Hence the Moon lord of lagna cannot protect the child from death.
- (ii) The star lord of lagna is **Saturn** a natural malefic and being lord of **VII** and **VIIIth** in **VIth** in the star of Venus occupant in **VIIth** and lord Bhadhakastana **XIth**, Hence, Saturn is number one malefic to close the life of the child.

(iii) The final and deciding factor for span of life is the sub lord of lagna cusp. The sub lord is Mars. Let us see the strength of Mars. Mars is lord of V and X in Vth. It is very good to **promote** the span of life of the native, but as per Krishnamurti Padhdhati the stellar position will reveal the **fact** and deciding factor. The Mars is not **able** to give the results of V and Xth houses as there is planet in Mars star (namely Rahu). So Rahu will give the results of V and **X**, Mars can give the results only in which constellation and sub Mars tenanted. The Mars is in Mercury star and sub and sub sub of Rahu. The Mercury lord of **XIIth Mokshasthana** in **VIth Disease** and conjoined with Venus lord of Bhadhakastana on Vllth cusp. Hence the Mars can give the results of VI, VII and X. th and also aspecting **VIIIth** (Danger) **XI** Bhadhakastana **XII Mokshasthana**, with above signification **Mars** is very strong enough to close the life of his child. It is promising infant death.

The child passed away on 29/30.5.1990 night **at** 3 a.m. **at** the time of Dasa of Saturn Bhukti and Antara of Venus and **Sukshma** of Jupiter is running. The day being Tuesday (Mars). The star was **Ashlesha** (Mercury), the lagna was **al** 10 degrees of Mesha, the sign lord is Mars and star lord Ketu.

Now let us see how these planets ruling at the time of demise are connected with death.

The Dasa lord Saturn is in **VIth** lord of **VII** and **VII** in Venus star lord of **XIth** Bhadhakastana on **VII** cusp. The bhukti and antara lord Venus is in Vllth cusp lord of **XIth** both Maraka and Bhadhaka houses. The Sukshma lord is Jupiter, lord of VI in Xlth in Rahu star in Vllth in the sub of Saturn lord of **VII** and **VIII** in **VIth**. The day lord Mars is signifier of **VI**, **VII** and

XIIth houses. The star lord on the day of death is Mercury lord of XIIth VIth conjoined with Venus lord of XIth in VIIth cusp lagna lord Mars already discussed and star lord Ketu is occupant in II house and agent of sun a significator of VII and VI and XIth houses. All the above planets are Karakas for death and jointly operated to close the life of the child.

The lime of death will be indicated by the lord of VIIIth, the lord of VIIth is Saturn, who is in Jupiter sign Dhanus in Venus star. Hence the combination of Saturn, Venus, Jupiter are connected with lord of VIIth. The period of death also Saturn dasa Bhukti and antara of Venus Sukshma of Jupiter operated.

Transit at the time of demise of the child.

Lagna rising in Mesha (Mars) star lord of Ketu.

Moon is in mercury star Jeyshita.

Sun in Venus sign (Taurus) Moon star, Jupiter sub in XIth house.

Mars Jupiter sign Saturn star and sub.

Jupiter Mercury sign in XIIth house, Rahu star.

Venus Ketu star Rahu sub.

Saturn Sun star Jupiter sub

Ail the planets are transitting at the time of demise in the signs, stars and sub of signification of 2, 7, 11 and 12th houses only.

The difference between the preparation and analyse of the horoscope on traditional system and krishnamurti Padhdhati stellar system is to be well understood by the readers. On the

traditional system, the Lagna and the planetary position in **the above 2 birth charts would be the same**, whereas in **the Krishnamurti Padhdhati** stellar system, the Lagna sublord is different causing one die and the other to survive, owing to Lag. sublord's connection within the star and sublord in which it is deposited. It goes without saying such minute factor which brings about varying results in a **short** space of time can be predicted and the principles of Krishnamurti Padhdhati stellar system only.

WHEN WILL THE FIRST CHILD BE BORN?

People come across happy occasions in their lives with the blessings of God. One such occasion is marriage. The purpose of marriage is living in the company of another person with a permanent tie of friendship in sharing the ups and downs of life. The sanctity of marriage lies in total understanding between the couple and leading a religious and holy life. Marriage is otherwise termed as legal bondage.

Life does not stop with marriage. Man finds happiness in having a child or children to make life enjoyable. Whether the couple want a child or not they are answerable to several questions from relations and elders in the family regarding their having a child soon after marriage.

As days and months pass by, especially when the couple desire to have a child, they become anxious when conception does not occur. Thus they begin going to doctors to check up their fertility.

The subject querent was anxious to know when would be her first child delivered ? Smt. M. Uma, my colleague was married in February 1990. The question was put to me on 25-5-1990, and I took up the investigation of the same on 25.5.1990 itself at 11.23 a.m. IST at Madras. The number given

between 1 -249 was 197. The cuspal and planetary positions were as follows

XI 20.19 Mars 155	Venus 0.23 Mercury 16.36 IV 21.14	Sun 10.09 V 18.27 Moon 20.54	VI 14.16 Jupiter 1749
II 15.59	Number : 197 Date : 25-5-1990 Day : Friday Time: 11.23 a.m. Place : Madras		VII 11.53.20 Ketu 17.13
Rahu 17.13 I 11.53.20 Saturn (R) 1.24			VIII 15.59
XII 14.16	XI 18.27	X 21.14	IX 20.19

Cusp	Sub Lord	Planet	Star lord	Sub lord
I-	Rahu	Sun	Moon	Moon
II.	Venus	Moon	Moon	Venus
IV.	Mercury	Mars	Jupiter	Rahu
XI.	Mercury	Rahu	Moon	Saturn
		Jupiter	Rahu	Sun
		Venus	Ketu	Ketu
		Saturn	Sun	Jupiter
		Mercury	Venus	Moon
		Ketu	Mercury	Mercury

We have to judge the V cusp for the birth of a child. Here the V cusp sub Lord is Mercury. Mercury is in the III in the star of Venus in III. Mercury is in the sub of Moon in the V. Moon is in its own star and thus becomes a powerful signifier of the V. Smt. M. Uma will certainly have a child.

XI cusp sub Lord is also Mercury and hence consolidates the birth of a child by way of strongly signifying the V and also fulfilment of the desire.

The II house tells of additions in the family. Here the II cusp sub Lord is Venus, posited in the III. Venus is in the star of Ketu representing Moon in V. Venus is also in the Sub of Ketu again representing Moon in V. Hence the II cusp sub Lord assures addition in the family by way of progeny signified by the V.

II Cusp Sub Lord Venus is in the Sub of Ketu is in the star of Mercury in the III. Ketu is also in the Sub of Mercury in the III. Mercury by tenanting a Venusian star again signifies the III. Being XI to the V fosters the birth of a child.

It is heartening to note that the query is easily answered through Krishnamurti Padhdhati.

Let me at this stage prostrate to the memory of our living GURUJI late Sri K.S. Krishnamurti, who has handed down to us his unfailing Krishnamurti Padhdhati in a lucid manner.

Coming back to the query at hand, WHEN will the first child be bora? Our Guruji has taught us to use the Ruling Planets for the TIME of fructification of an event. The Ruling Planets at 11.23 A.M. were as follows :

Lagna	Moon (Cancer)
Lagna Star	Mercury
Moon Star	Moon
Moon Rasi	Venus
Day Lord	Venus

Lagna lord Moon in the sub of Saturn denotes delay. In the horary figure Saturn is retrograde and posited in the XII and confirms the delay.

In the horary figure the V cusp sub Lord is connected to Moon, the fastest planet, while the Lagna **cusp** sub Lord is Saturn in the Ruling planets which is the slowest.

Hence I took the transit of Sun in Taurus in the star of Moon and in the sub of Mercury for the birth of the child, i.e. on 3.6.1991.

Result

Readers will be happy to note that **Smt. Uma** has been declared pregnant by her doctor, and the delivery is expected in June 1991.

As the Ruling Planets are Moon, Venus and Mercury, especially the V strongly connected with Moon indicates a female child.

May lord Mahaganapathy bless **Smt. Uma's** family, and everyone of the readers.

I thank Sri. K. Hariharan, who on behalf of all of us is leading in promoting this Divine science.

THE MIRACLE THAT IS KRISHNAMURTI PADHDHATI

)

Where medical science fails, Krishnamurti Padhdhati succeeds, and it not only shows miracles but serves as an eye-opener to all those groping in the dark regarding the wonderful accuracy of advanced stellar astrology contained in **Krishnamurti Padhdhati**.

One of the top officials (who is also my best friend) wanted me to predict the correct date and time when **his** wife would give birth to a child as she was in the family way. I **immediately wanted to put the principles of Krishnamurti Padhdhati to test** and asked him to give a number within 249. He said "245".

(a) the number '**245**' mentioned shows the lagna in Pisces sign, **Revathi nakshatra**, i.e., **between 22-13-20 and 23-20**. This area is ruled by Guru as the sign **lord**, Budha as the star lord and Moon as the sub lord.

(b) the Moon at the time of query was **also** passing over Cancer (**Kataka**) $28^{\circ} 1'$, which area is **ruled by Moon as the star lord**, Mercury as the lord of the nakshatra and Saturn as sub **lord**.

(c) The day was Tuesday, its lord being Mars, which at that moment was in $28^{\circ} 52'$ Vrischika, Mars sign, Mercury **nakshatra and Saturn sub**.

Summing up (a), (b) and (c), the positions of the planets functioning as signifiers were :

- (a) Jupiter, **Mercury and Moon**.
- (b) Moon, Mercury and **Saturn**.
- (c) Mars, Mercury and **Saturn**.

The above significators immediately gave me the clue that **the strongest among them were Mercury, Moon and Satum and the date of birth of the child would be on the day when Sun will pass over Virgo sign, Hasta nakshatra, i.e., 15-40 to 17-46-00 = Mercury sign, Moon nakshatra and Saturn sub which will be only on the night of Saturday, the 4th October, 1969 and before Sun-rise on Sunday.**

Accordingly, I asked the gentleman to reserve a cabin in the Nursing Home, from the **4th October, 1969** and shift his wife **there on the afternoon of that date**. He was not prepared to **heed to my advice on the ground that his family physician and the lady doctor treating his wife for the last eight months had emphatically told him the date of birth as 27-9-1969 and accordingly all his arrangements in the Nursing Home were finalised**. His family physician was also present at the party **and**, on hearing of my prediction, he came to argue with me. He confirmed again that the date calculated was **27-9-1969** on **the basis of medical science and could not fail**. I simply smiled and told the gentleman who put the query that if he could easily **afford to bear the charges of the nursing home for one week unnecessarily, he could do so**. I further informed him that after an hour when I would go **backhome**, even the correct time of birth could be given to him by me, after a detailed calculation.

He accompanied me to my place and, after detailed working, I told him that the date of birth would be **4/5-10-1969** (Saturday night) and the time would be **2-50 a.m. (IST)**. He profusely thanked me for my labours.

Under medical guidance, he shifted his wife to the Nursing Home on 25-9-1969 and kept her there till 29-9-1969 but without any avail. He then came to my place on 30-9-1969 to get my confirmation again. I held to the same opinion.

According to my advice, he again admitted his wife in the Nursing Home on **4-10-1969**. The next morning at **6 a.m.** he

came **this** time to congratulate me on my prediction - he was blessed with a son at 2-50 a.m. on Saturday night, i.e. on 4/5-10-1969, precisely as was predicted 26 days in advance.

Is it not a miracle of Krishnamurti Padhdhati ? How wonderfully the result came correct while the calculations of medical science utterly failed ?

Now, for the information of the students of Krishnamurti **Padhdhati I am giving below the details of my calculations on the basis of which the prediction was made.**

Question : When is the birth of the child expected ?

Number : 245.

Time of Judgment: Tuesday, 9-9-1969.

Place of Judgment: Calcutta.

The number "245" represents the area in the zodiac between $22^{\circ} 13' 20''$ and $23^{\circ} 20' 00''$ in Pisces (Meena), i.e., Jupiter sign, Mercury star, Revathi, and in that the sub of Moon (Chandra).

Asc. Lagna 22-13-2D	Saturn (R) 15-11 II 25-30	HI 23-30	IV 17-30 .

X 17-30	Mars 29-44 IX 23-30	VIII 25-30	VII 22-13-20 Jup. 16-31 Merc. 19-05

<i>Planet</i>	<i>Constellation lord occupied</i>	<i>Sub-lord</i>
Sun	Venus	Saturn
Moon	Mercury	Saturn
Mars	Mercury	Saturn
Mercury	Moon	Mercury
Jupiter	Moon	Saturn
Venus	Mercury	Venus
Saturn	Venus	Mercury
Rahu	Jupiter	Mercury
Ketu	Sun	Moon

Note : The nodes, firstly, give the results of the planets with which they are conjoined and, secondly, the results of the lord of the sign occupied by them. Thus, Rahu represents **Saturn** ; Ketu is a substitute for Sun.

For the birth of children, houses 2, 5 and 11 are to be taken into account. The second stands for "Kutumba" or family, addition to the number of family members, etc. The fifth house rules progeny; the 11th house, its opposite, also indicates as it is in 5 counted from the seventh house (wife or husband).

<i>Cusp of house</i>	<i>Nirayana longitude of the house, nakshatra lord and sub lord ruling the house cusp</i>	<i>Owner of the cusp</i>	<i>Planet in the bhava</i>	<i>Planets in similar group of nakshatra</i>	<i>Significators</i>

XI	17° Makara 30' Moon-Rahu	Saturn	-	-	

Common significators : Mars, Moon, Venus, Mercury, Saturn and Sun

Ruling Planets

The planets who rule at the moment of judgment are :

(i) Lord of the day Mars

(ii) **Lord of the rasi**

occupied by Moon Moon

(iii) Lord of the nakshatra

where Moon **transits Mercury**

(iv) Lord of the lagna at

the time of the judgment Venus

(v) Lord of the constellation

occupied by lagna Moon

Therefore, the ruling planets are Mars, Moon, Mercury, Venus, Moon and Sun.

The signifiers of houses 2, 5 and 11 were considered as Mars, Moon, Mercury, Venus and Saturn.

(a) Mercury, **Saturn** and Rahu are in the sub of Mercury ;

(b) Mercury is in the nakshatra of Moon ;

(c) Rahu represents **Saturn** ; and

(d) Sun, Moon and Mars are in the sub of Saturn.

As such, the strongest signifiers are Mercury, Moon and Saturn. It was therefore calculated that the delivery will take place when the Sun transits over Mercury sign, Moon nakshatra (Hastha) which was possible on the 4th/5th October night. Regarding the correct time of birth, the position of the Moon on 4th/5th October, 1969 ~~was considered~~, i.e., when it would pass over the Moon sign Kataka, Saturn nakshatra Pushyam, Saturn sub and Mercury sub sub, i.e., $3^{\circ} 41'$ Kataka, which will be only

at 2-50 a.m. (IST). The Ascendant at that lime will be $10^{\circ} 56'$ in Simha, in Sun sign, Ketu nakshatra and Saturn sub. The horoscope of **the** child was **also** prepared in advance, based on **the** calculated data given to my friend on 9-9-1969.

It is now for the learned reader to judge the merits of "KRISHNAMURTI PADHDHATI" as it is absolutely beyond the scope of any traditional method of astrology to arrive **at** such a surprisingly correct result. The proof of the pudding, verily, is in **the eating.**

EDUCATIONAL QUALIFICATION AND A SUITABLE JOB

A. Birth Details :

1. **Date** of birth : 15th July 1941.
2. Time of birth : 11-54 p.m. I.S.T. = 12-15-36 a.m. on 16th July, 1941.
3. Place of birth : Lat. 23.15 N. : Long. 87.54 E.
4. Day of birth : **Tuesday**.

B. Nirayana Rasi Chart :

F. Bhava Chart :

Bhava I - Saturn

Bhava II - Jupiter

Bhava III - Mercury,Sun

Bhava IV - Venus

Bhava V - Rahu

Bhava XI - Ketu

Bhava XII - Mars, Moon

Planet	Lord of Constellation		Lord of Sut	
	<i>Occupying</i>	<i>Ruling</i>	<i>Occupying</i>	<i>Ruling</i>
Saturn	3	5	2	9,12
Jupiter	12	4	3	3,6
Mercury	3	3,6	3	3,6
	2	9,12	12,	4
Venus	3	3,6	12	4
Rahu	3	5	2	9,12
Ketu	2	9,12	3	3,6
Mars	1	10,11	3	3,6
Moon	3	3,6	12	1,8

Note :- Rahu is equivalent to Mercury because it is posited in Virgo, a sign ruled by Mercury ; similarly Ketu is equivalent to Jupiter as it is posited in Pisces, a sign ruled by Jupiter.

II. The Query

The native asks two questions :-

1. Will my educational qualification be increased ?
2. Will I get a suitable job befitting my qualification ?

III. Astrological analysis

Answer to Question No. 1.

According to Krishnamurti Padhdhati, the educational qualifications, especially the degrees, attained by any person are to be judged from 4 th house. 9th house stands for higher studies, deep insight and an element of research too. As it amounts to realisation or fulfilment of desire, 11th house should also be considered.

At the time of judgment, i.e., on 8th July, 1967 at 12-15 a.m., the day is Saturday, ruled by **Saturn**, lord of 11 in the radical chart. Jupiter, kataka for education, is transitting in the 4th Bhava, and that too in the constellation of Saturn, lord of 10 and 11. Moon is also transitting the constellation of Jupiter, lord of 9, indicating higher studies and the SUB of **Saturn**, again lord of 10 and 11 in the radical chart. Ascendant falls in aries $1^{\circ} 21^*$, thus posited in the constellation of **Ketu**, the sole occupant of 11th Bhava and in the SUB of **Venus**, occupant of 4th Bhava and lord of 2, one of the houses concerned with income. Hence it is deduced that the native will realise his ambition.

Now let us analyse houses 4, 9 and 11 in the radical chart to come to a definite conclusion.

4th house is occupied by **Venus**. **Venus** rules **Bharani**, **Poorva Palguni** and **Poorvashada**. No planet is in these constellations. Similarly no planet is in the sub of **Venus**. Hence **Venus** is weak.

Moon is lord of 4. **Moon** rules **Rohini**, **Hastham**, and **Sravanam**. Only **Jupiter** is in **Rohini**, so take **Jupiter**. But as **Jupiter** is occupying the sign **Taurus**, ruled by **Venus**, his natural enemy, he is also weak.

9th house is occupied by any planet. **Jupiter** is lord of 9. **Jupiter** rules **Punarvasu**, **Visakam** and **Poorvapathra**. **Ketu** is in **Poorvapathra** and **Sun** is in **Punarvasu**. So take **Ketu** and **Sun**. **Ketu**, being a node, is powerful. Moreover, it is also posited in the sign **Pisces**, ruled by **Jupiter**. So accept **Ketu**. But **Sun** is posited in 3rd. Bhava, which is 12th from 4th, hence it cannot give increase in academic qualification. So reject **Sun**.

Rahu and Saturn are in the SUB of Jupiter. So take Rahu and Saturn. **Rahu**, being a node, is powerful, so accept Rahu. **Saturn** is posited in the sign **Taurus**, ruled by Venus, his natural friend, hence powerful. So accept Saturn too.

Hence finally take Ketu, Rahu and Saturn.

11th house is occupied only by Ketu. Ketu rules Aswini, Makam and Moolam. No planet is in these constellation. No planet is in the sub of Ketu. But Ketu is already a signifier and is also posited in the constellation Jupiter, lord of 9, and in the sub of Rahu, another sign if icator. Hence Ketu is a very strong signifier for increase in academic qualification and realisation of ambition.

4th Cusp (Cancer 2°4') falls in the constellation of Jupiter, lord of 9 and **SUB** of Rahu, a signifier. Similarly **9th Cusp (Sagittarius 7° 04')** also falls in the constellation of Ketu and **SUB** of Rahu, both signifiers. Hence the above-mentioned deductions are further confirmed.

Therefore, Rahu, Saturn and Ketu are the strong signifiers for increase in academic qualification for the native.

At present the native is running Venus Dasa, Jupiter Bhukti and Saturn Anthra from 13-3-1967, which will last up to 15-8-1967. Venus and Jupiter are weak signifiers, hence the period is not so good for the increase in academic qualification, but Saturn Anthra is decidedly better, because Saturn is a strong signifier. The native has to appear al an examination during this period. Due to the benefic influence of Saturn (Please mark that the traditional astrologers will always call Saturn a strong malefic, they cannot conceive that Saturn can also act as a benefic), it is predicted that he will surely get through and secure

good marks. Moreover the longitudinal distance between Saturn and Jupiter is $15^{\circ} 23'$, which amounts to applying vigintile aspect, which is good. Hence it is confirmed that it will give good results.

Similarly Venus Dasa, Jupiter Bhukti and Ketu Anthra from 1-1-1968 to 27-2-1968 and Rahu anthra under the same period from 11-2-1969 to 5-7-1969 will be equally good. The native will be successful in increasing his academic qualifications during these periods.

Answer to question No. 2 .

For answering this question, we must judge houses 2, 6, 10 and 11.

2nd house is occupied by Jupiter. Jupiter governs Punarvasu, Visakam and Poorvapathra. Ketu is in Poorvapathra and Sun is in Punarvasu. Rahu and Saturn are in the SU'B of Jupiter. So take Rahu, Ketu, Saturn and Sun. But Saturn is posited in 1st Bhava, which is 12th from 2nd. Hence eliminate Saturn. Similarly Sun is posited in 6th Bhava from 10th Cusp (M.C, the Cusp of profession), hence eliminate Sun too. Rahu is applying to the 6th Cusp (Rahu is at $2^{\circ} 53'$ in Virgo and 6th Cusp falls in $3^{\circ} 04'$ in the same sign), and Ketu is posited in 11th Bhava in the sign of Jupiter hence finally take Rahu and Ketu.

6th house is unoccupied by any planet. Mercury is lord of 6, but again it is also posited in 6th Bhava from 10th cusp, indicating profession, so it is weak. Hence eliminate Mercury.

10th house is also unoccupied by any planet. Saturn is lord of 10, but as we have already eliminated Saturn, Saturn cannot come as a signifier.

11th house is occupied by Ketu. No planet is posited in either constellation or sub of Ketu, but Ketu, being a node, is powerful and it is already a signifier. Moreover, Ketu is in the constellation of Jupiter, occupant of 2nd house, and in the sub of Rahu, a strong signifier. Therefore finally take Ketu as a very strong signifier for the employment of this native.

At present the native is running Venus Dasa, Jupiter Bhukti from 5-11-1966, which will last upto 5-7-1969. Venus, although in no way connected with the houses concerned with service is aspecting 10th and 11th. Bhavas from the degree position and Jupiter is lord of 2, hence this period is good for service and income but not very strong, as the two prominent signifiers Rahu and Ketu are not operating. It is confirmed, as the native ran Venus Dasa, Jupiter Bhukti and Jupiter anthra from 5-11-1966 to 13-3-1967 and during this period he got employment, although in low category on 6-2-1967. On this day, Moon was passing through Poorvashada, a constellation ruled by Venus. as Venus is a weak signifier, it gave low grade in service.

But due to the benefic influence of Rahu and Ketu, the native will get a suitable job according to his qualification with rise in status and increase in income, during 1-1-1968 to 27-2-1968 (Ketu anthra under Venus Dasa, Jupiter Bhukti) and 11-2-1969 to 5-7-1969 (Rahu anthra under Venus Dasa Jupiter Bhukti). There is no doubt about it.

RETURN OF MISSING SON

The above is the query of the mother and she says that he is, the eldest son missing from 7-5-1963 ; Number given by the anxious mother is 9.

Time of judgment : 5-38 p.m. 25-12-1967.

Horoscope is as follows :

Saturn 12-35	Rahu 1-02 Lagna 26-40		
Mars 25-04			Jupiter (R) 12-32
Sun 9-42 Mercury 7-44		Venus 27-50 Ketu 1-02	Moon 23-22

Jupiter (R) in 12 to 5 ; Moon in the 1st Bhava to 5 ; Ketu in 2 to 5 ; Venus in 3 to 5 ; Mercury and Sun in 4 to 5 ; Mars in 6 to 5 ; Saturn in 7 to 5 ; Rahu in 8 to 5.

Mars Dasa balance 6 years 11 months 23 days.

To leave one's home, to go away and live in an unknown quarters is indicated by the houses 3 and 12.

3rd house is occupied and owned by Venus but Ketu, a node is in that sign owned by Venus. Hence lake Kelu and judge. Ketu governs Aswini, **Makam** and **Moolam** : Rahu, Jupiter, Mercury and Sun are in Ketu star.

12th house occupied by **Jupiter** : owned by Moon. Venus is in Jupiter's star whereas none is in Moon's star. So Venus and **Moon** indicate 12th house matters. Jupiter, Mercury, Sun, Rahu, Ketu, Moon, Venus are significators.

People who leave the house without any aim or any programme or notice, will be, naturally, going from one place to the other and hence the 7th house also needs judgment. During the period and sub period of the signifier of the 7th house and the 3rd house, one will be making many short journeys and one will be breaking journey on the way. 7th house counted from the **5th** (Leo) representing son, is occupied by Saturn as the 7th house extends from 26-40-30° 00'. Aquarius to 26°-40/30° of Pisces. Saturn alone is in its Star Uthrapalhrapada.

Now, if we calculate when the boy had run away, and work backwards it is Moon Dasa **Saturn** Bhukti Rahu **Anthra**

Moon is lord of 12 : Saturn is the signifier of 7 and Rahu by occupying Mars sign Aries, denotes 9th house matters and by being in Ketu constellation and Venus sub, indicates that he had been going aimlessly from one place to the other from the above evil period. It was Tuesday. Rahu star day in Venus sign.

The question is about the return of the boy and not **about** the time of his missing.

Judge the houses 2, 8 and 11. 2nd house is occupied by Ketu. Rahu, Jupiter, Mercury and Sun are in Ketu star. 8th house is occupied by Rahu and none in Rahu star. 11th house and no

planet is in Mercury star. Therefore Rahu, Mercury (Rahu indicates Mars) conjoined sub period will bring him back, i.e., Mars dasa Rabu Bhukti Mercury anthra, i.e., between 3rd November 1968 and 25-12-1968.

Consider the ruling planets at this moment. Today it is Monday ruled by Moon. Chithra governed by Mars, represented by Rahu. Lagna is Gemini owned by Mercury. Therefore, he will return in Moon shukshma when the lagna is in Arudhra, and Mars dasanatha transits Moon's position at the time of query, i.e., 6-12-1968 at about 6-30 p.m.

Return to native tend : The following is the horoscope of an intelligent student who is now in America. When he will come back and settle down in India is the question ?

Jupiter 6-13	XI 0-5 Saturn 3-15 Ketu 5-15	XII 3-5	Lagna 3-5 II 29-5
X 27°-05 Mars 2-41	8-10 P.M. I.S.T. 12-11-1939 10° 46' N 79° 53' E	III 26-5	
IX 26-5		V 27-5	
VIII 29-5 VII 3-5	Mcr. 18-47 Ven. 13-54 Moon 12-43 VI 3-5	Sun 26-24 Rabu 5-15 V 0-5	

Overseas : Houses 3, 9 and 12 to be judged.

Occupants : In 3 none : in 9 Mars : in 12 none ; Mrigasira, Chitra and Dhanishta ruled by Mars. Rahu in Chitra : Mars in Dhanishta.

Mars sign occupied by Ketu - stronger than Mars Saturn, Ketu are in Ketu constellation Aswini ; Owners : Moon, Saturn and Venus : None in Moon's and Venus stars ; Moon and Venus are in Saturn's star.

Venus sign occupied by Rahu : No planet is in Rahu's constellation. So, take Rahu. Therefore the planets connected with the houses 3, 9 or 12 are Mars, Rahu, Ketu, Saturn, Moon and Venus : They are called the signifiers of these houses. This student left India on 6-9-1962. When he had been running Ketu Dasa Ketu Bhukti Rahu Anthra when Moon transitted in Scorpio which is also represented by Ketu. As Ketu was conjoined with Saturn ; it was an Anuradha star day, Ketu and Saturn conjoined together in Moon's star Sravanam. Rahu was in Moon's sign Saturn star.

He returned to India on Monday, Sathabhisha star day — 24-1-1966. At that time he was running Ketu Dasa Rahu Bhukti Ketu Anthra. One should note that for return journey also, houses 3, 9 and 12 are to be judged, because the same long journey is to be undertaken.

Again he left on 24-2-1966 when Ketu Dasa Rahu Bhukti Venus Anthra was running

When he will come back is the query. The answer is Ketu Dasa Mercury Bhukti Rahu Anthra. It will be on Arudhra star day in February 1969. 12th house shows separation also. Reunion is shown by the 11th house and the 4th house.

4th house is vacant : It is ruled by Mercury : Ashlesha, Jyeshta and Revathi are governed by Mercury. Mercury alone is in its star. 11th house is owned by Mars. Ketu is posited in 11 ; Ketu Dasa brings the native back. Rahu in Mars star will give the journey as M⁺ s in 9 and Rahu representing 12th house can

give separation and in the constellation of lord of 11 can give reunion.

So, Ketu Dasa Mercury Bhukti Rahu anthara is predicted. At the lime of judgment, 29-11-1967 it was Wednesday and the star is **Swath i** ruled by Rahu, **Thulam**, occupied by Ketu on 29-11-1967. This gives the confirmation.

WHEN CAN I PAY THE BALANCE ?

"An agreement was signed with the contractor on 14-10-1967 requesting him to construct a building for my use at a cost of Rs. 50,000.

I paid Rs. 6,600 on 29-6-1961, secondly on 14-10-1968, Rs. 10,000, thirdly on 21-12-1968 Rs. 7,000. The balance is to be paid. Source and date of repayment, God alone knows" says one student.

"Why do you say that God alone knows. Cannot our Guruji tell you when and how you will repay and regain peace."

"Yes. He can help us by prediction."

Then what do you expect from an astrologer. Our **classmate** may consult when he **will** get married. Since he is depressed and dejected as he remains unmarried and he had his 37th birthday, only yesterday. Will the astrologer relieve his worry or satisfy him by giving any of his aged daughter in marriage to him. Or if I go and say that (here is pressure for money etc., which you are aware of, will he issue a cheque and help me. If our room-mate requests him to find out when he can get **accommodation**, will he make a search for him. Astrologer can give only this much **relief**; **That** is he can remove the worry. How ? He will predict when the matter **will** materialise. "Alright let us meet him".

Horoscope is as under :

	Ascendant 4.46	II 6.19	Ketu 133 III 2.19 IV 26.19
		15-12-1936 2-49 P.M. 24 - 51 N 67 - 04 E	V 23.19
XI. 23.19 Sat. 23.31			VI 25-19
X 26.19 Moon 16.07 Merc. 14.59 Jupiter 10.7 Rahu 1.33 Sun 0.23 IX 2.19	VII 6.19	VII 4.46	Mars 25.10

Venus Dasa balance : 15 years, 9 months, 27 days.

It is **verified**. an intelligent student, without a single mistake has calculated and erected the chart according' to Krishnamurti Padhdhati.

"The chart is perfectly alright. Give me few minutes".

Two minutes passed. I made all calculations and I wrote the dates of repayment in a slip of paper.

"Mesh started at 9-38 a.m. Sir. so it is mesh."

"Who is the owner of Mesh ?"

"Mars, sir."

"What is your day of birth ?"

"Tuesday."

"Who governs Tuesday ?"

"Mars."

"Next, where is Moon now ?"

"In Taurus."

"Who is its Lord ?"

"Venus."

"What is your birth star ?"

"Poorvashada."

"Who rules Poorvashada 7"

"Venus, Sir."

"You are the third person visiting, now."

"Do you see that your lord of lana is Mars, lord of your star is Venus."

"Yes, Sir."

"What did I teach you in the class ?"

"You said that one can consult an astrologer only at such a lime so that the ruling planets at that moment agrees with the ruling planets at his or her birth moment."

'Are you satisfied with correctness of your chart ?'

"Yes, Sir."

"Now, let me tell you, the next date of repayment will be on 15-3-1969."

"How did you arrive at it in 2 minutes, Sir."

"If I explain it will take 15 minutes f any how let me oblige, you both."

"What do you mean by an agreement with contractor. Does it not mean that you and another person sign a document wherein both agree. So which houses are we to judge. 3rd house counted from your lagna and the 3rd counted from 7th, i.e. houses 3 and 9 in your chart."

3rd house is vacant : Owner is Mercury. It has no planet in its stars Ashlesha, Jyeshta or Revathi. So Mercury is one of the significators.

What was the period running at the time of signing the contract. Moon Dasa Venus Bhukti Salurn anthra Venus shookshma. The day was a Saturday. The star was Saturn star. The time of signing the contract was Makara sign, Moon star.

Next you paid first instalment. Houses 8 and 12 indicate the repayment, just like 2 and 6 when judged together denote borrowing.

You repaid during the Moon Dasa, Sun Bhukti Saturn Anthra on a Saturday when Moon was in Cancer owned by Moon.

Next payment was made during Mars dasa Mars Bhukti Mars anthra, Rahu shookshma on a Monday in Rahu constellation in Mercury sign.

The third was paid on 21-12-1968 during Mars Dasa, Mars Bhukti, Saturn Anthra on a Saturday when Moon was in Makar, ruled by Saturn.

"How is it, Sir, that Saturn gives me money and also makes me part with it ?"

In your chart, Saturn owns both 11th and 12th houses : No plane; is in 12 : Saturn alone is in 11. No planet is in Satum star. Hence Saturn gives due to 11th house. Saturn dispenses due to 12th house result. So, on the days governed by Satum you get cheques. You issue cheques.

"Can 1 pay in full ?"

"No."

"Whenever Saturn rules, all payments will be made only in instalments."

"Why, Sir."

If Saturn indicates disease, Saturn gives a chronic one.

If we gel or give, Saturn prolongs the period by way of instalments. It is a delaying planet to fulfil one'sdesirec whereas it is not denying or disappointing one.

"When will I clear off the loan ?"

"Mars Dasa Rahu Bhukti Sun Anthra -January 1970."

"Will he give me time to that extent ?"

"Whether he gives or nol, you clear off only when the :onjoined period of planets deposited in the constellation of

planet in 2 operates ; to clear off your dues. Judge the house "Two".

"Thanks' Sir ?"

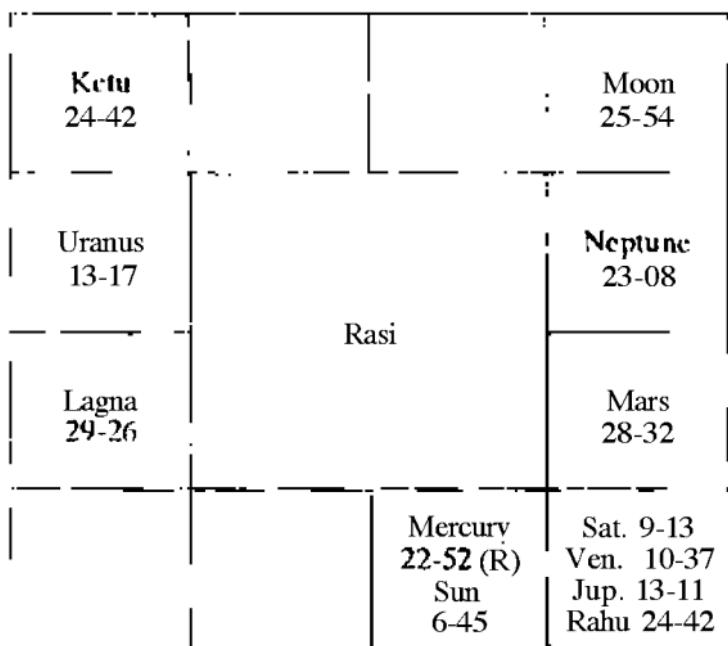

"Both go smilingly and with the hope that he can repay and clear off in January 1970 and with a decision to take lime from the contractor".

"Is your worry over ?" asks the classmate, while they are putting on shoes sitting in the outside verandah."

"What doubt is there ? He deals with the subject so quickly, explains it in meticulous detail so lucidly and encourages with his convincing arguments so confidently". So saying they go on and on and I can't hear any more what they talk.

CAN I HAVE A CHILD ?

Born at 2-07 P.M. (I.S.T.) on 23-10-1921 at $9^{\circ} 36' N$ and $76^{\circ} 34' E$.

2nd Cusp Pisces $3^{\circ} 33'$.

3rd Cusp Aries $7^{\circ} 33'$.

4th Cusp Taurus $6^{\circ} 33'$.

5th Cusp Gemini $3^{\circ} 33'$ in Mars star, Venus sub.

6th Cusp Gemini $29^{\circ} 33'$.

To judge the time of birth of a child one has to select the significators connected with the houses 2, 5 and 11 and predict the time during the conjoined period of the significators.

But, first of all, one should ascertain whether the person will have a child at all. [As 1 have to give the rules, whatever is given within brackets is not intended to speak ill of this native.] Whenever this question is put, it is advisable to judge the 5th Cusp of the husband in the husband's chart and the 5th Cusp of the wife in her chart. If either of the horoscope alone is available and the other is not available, then the 5th cusp shows whether his or her health is all right and he or she is capable of having a child or incapable of producing one. The 11th Cusp in that chart shows whether the partner is promised children or not. If the 5th cusp shows that he can have and the 11th shows that the partner cannot have, then he will have natural children outside. If the 11th Cusp shows that the parner can have and the 5th cusp denotes that he cannot have, then the wife can bring forth a child to call him as father, though God knows that he is not. [If both the 5th and 11 th Cusps promise progeny then they will both have: the children born may or may not be to the husband and the husband also can have outside other than what he can have through his wife. If both the 5th and the 11th cusps are not favourable, they will both be denied children. they need not use contraceptive methods.

In this case the 5th Cusp is in the sub of Venus and the 11th Cusp is in the sub of Sun. Both Venus and Sun are in the 8th house. 8th house is unfavourable. Therefore both are sterile. No child can be had al all.

[In a few cases, the 5th Cusp will promise child birth. But even for 10 years after marriage, they could not have had the dasa and bhukti of the signifiers. When they conjointly operate, they will have.]

CHANGE OF RESIDENCE AND TRANSFER

Horoscope is as follows

V 22.24 Moon 17.18	VI 18.24	Ketu 4.11 VII 10.18	VIII 11.24
IV 21.24	9-10-1919 10-32 A.M. 33° 37' N 73° 06'		IX 16.24 Jup. 20.43
III 16.24			Mars 6.48 Sat. 14.25 Ura. 18.55 M.C. 21.24
II 11.24	Lag. 10.18 Rabu 4.11	XII 18.24 Merc. 0.48	Sun 22.14 XI 22.24

Budha Dasa Balance 16 years 2 months 9 days.

Moon dasa started on 18-12-1968.

For transfer judge houses 3, 9 and 12 which includes change of residence also. They should be connected with house 6 or 10. If connected with 11th house, it shows increase in income and improvement in status.

Third house is vacant. It is owned by Saturn; Pushy a, Anuradha and Uthrapadra are governed by Saturn-Rahu is in Anuradha.

Ninth house is occupied by Jupiter, Mars, Saturn and Venus. No planet is in Jupiter star. Mercury is in Mars star.

Rahu is in Saturn star : Saturn and Venus are in Venus star.

Rahu is in 12. No planet is in Rahu star. Rabu is the strongest.

When majority of planets denote a particular matter, how to eliminate many and select those which will act. Mr. Krishnamurti has said that a matter may be indicated by any number of planets. That particular affair may be one which repeats now and then in one's life, just like birth of child, purchase of jewel, transfer, change of residence, journeys, etc. Then the significators at the moment of judgment clearly shows the immediate next repetition of the matter. In one's life birth and death alone happen only once. Other affairs repeat themselves according to one's horoscope.

Today it is Tuesday, ruled by Mars. Lagna is in Cancer, owned by Moon, star is Poorvapadra governed by Jupiter, in whose sign, at the time of judgment, Rahu is deposited who represents Jupiler. Rasi is owned by Saturn. Hence Moon, Mars. Rahu, Jupiter and Saturn are the significators. Lord of lagna is the strongest and his dasa is on. Lord of star is represented by Rahu. So, take Rahu Bhukti. Next select Jupiter, lord of the star, i.e., Jupiter Anthra Saturn shookshma is the last sub sub period (that is) it will be around 17th August, 1970.

HIGHER STUDIES

The horoscope is as follows :

V 10-40	VI 8-40	VII 3-42 Moon 13-29 Sani 18-40	VIII 3-40
IV 8-40 Ketu 8-04	27-10-1942 7-32 P.M. 24° 6' N 88° 19' E	Jupiter 1-51 IX 5-40	
III 5-40		Rabu 8-04 M.C. 8-40	
II 3-40	Lagna 3-42	Sun 10-04 XII 8-40 Mars 3-08 Venus 4-56	XI 10-40 Mercury 21-45

Moon Dasa balance 7 years 4 months 20 days.

For high school and college studies which need regular attendance to learn the subjects by hearing the lecturers from the beginning to the end, one is to judge the houses 4 and 11. If one has to work himself, do research, submit thesis etc., or if one is to leave his native place, remain in a hostel in the foreign land, leaving his kith and kin and enjoying new surroundings and environments, one is to judge the houses 9 and 12 and to come out successful. 11th house signifier should also be the signifier of either 9th or 12th house.

Here lagna is $3^{\circ}42'$ Scorpio. 9th house extends from $5^{\circ}40'$ cancer to $8^{\circ}40'$ Leo. Occupant is stronger than owner. according to Krishnamurti, occupant of a constellation is stronger than the lord of the constellation. constellation is stronger than the sign. Occupant of a sign is stronger than the lord of the sign. Planets conjoined with or aspected by a planet gains the strength to offer those results which those planets signify. thus a planet becomes the signifier of a few matters. the source of the result is shown clearly by the Bhava-house occupied by the planet and the house or bouses which it owns (owner of a house means owner of the sign where the cusp or cusps of a bhava or bhavas fall).

Rahu is the occupant of the 9th Bhava. Its constellations are Arudhra, Swathi and Sathabisha. Sun and Ketu are in Rahu's star (star, nakshathra asterism, constellation are one and the same).

Moon is the lord of the sign where 9th cusp falls. Kohini. Hastham and Sravanam are governed by Moon. Moon, Sani and Mercury are in Moon's star.

When so many planets indicate a result, it means that they are connected with this, 9th house results. If they happen also to be the signifier of 7th house also, it means, it is the 11th to the 9th. 9th house indicates the father of the native ; hence the 7th house, which is the 11th to 9th indicates success in father's attempts, cure from the disease and realisation of his ambition also other than what it denotes the native, i.e. to have a partner in life or to enter into a contract with another. Moon is in 7. It is in its own constellation. so Moon indicates 9th and 7th house matters. Saturn is in 7. Saturn is in Moon's star which occupies 7th house. So Saturn presages matters signified by 7th and also the 9th house matters. Therefore during Moon and Saturn sub

periods not only the native will enjoy 7th and 9th houses matters, but the native's father will achieve his aim.

As regards overseas, judge the house 12 as it promises, separation from family, living in new surroundings and environments. **12th** house extends from $8^{\circ} 40'$ Libra to $3^{\circ} 40'$ Scorpio. Sun is deposited in the **12th** house.

Now one should remember that in everybody's horoscope **there** are the houses 3, 9 and 12. there must be the signifiers of 3, 9 and 12 at least two. Why ? any one planet may own the houses 3 and **12 or 9** and 12 and the other can own the third **house**. these two planets may not have any planet in their constellations and also no planet in these 3 Bhavas. then only these two planets will be the owners and **signifiers**. When every individual have got at least 2 planets, why should not everybody make long journeys go overseas and stay in the foreign land during their conjoined periods and sub periods. Majority do not go **overseas**. simply to satisfy themselves, just like what I did when I was very young, they can take a big world map, spread it on the **ground**. then stand where Africa is shown. Say, I am in Africa. **Take away** the footsteps, keep **them** in Australia map and say "I am now in Australia". Lift your legs and keep where America is drawn. Say "I am now in America". That is **all**. But the surrounding and environments remain the same. One can go only when the sub lord of the 12th cusp is connected in any manner with 3rd or 9th house: preferably 9th house.

In this chart, 12th cusp **is** in $8^{\circ} 40'$ in **Libra**. the constellation is ruled by Rahu; the sub is also governed by Rahu. Rahu is in the 9th Bhava. If he would have been born one minute later, the sub lord will be Jupiter who is in the 8th Bhava, in the constellation of the planet in which is Vyaya to the 9th house, in which case he cannot go overseas.

If twins are born one with Rahu, as the sub lord of the 12th house cusp and the other twin with the sub lord of the 12th cusp as Jupiter, then even (hough

1. The planets are in the same **bhava**.
2. Dasa and Bhukti same.
3. Gochara same.

One enjoys and the other is disappointed.

(Guruji has discovered this truth, and he has handed down most dimple sure, successful and scientific method for the benefit of those readers who make honest attempts with open mind.)

Now let me request who had been writing, publishing or talking in vain, to give out a method, **Nadiamsas** are those for post-mortem - What can you predict ? Where is the cogent Science ? Who is benefitted by the sub division of a sign to innumerable ones. where is the Science ? Now, al least, why should not that learn and be useful to the querists instead of offering vague and general tendencies. Let me tell such people that many English- knowing traditional astrologers have switched off traditional astrology and switched on to Krishnamurti Padhdhati.

When two people have the same chart with less than 1/2 a degree differences in lagna position how can one differentiate, without applying the useful Krishnamurti Padhdhati. As Rahu is the lord of the sub of the 12th cusp, this native will and must live in a foreign place.

When Rahu is the occupant of the 9th house in the constellation Ketu in 3 it is connected with land journeys, and long journeys.

Hence this native has got the opportunity to go overseas.

Now comes the question of finding out the time of event.

It will be Rahu Dasa Moon Bhukti Saturn Anthra.

How did I arrive at it? Here **also** guruji has given an unfailing clue which has been discovered by him.

Now, consider the ruling planets at the moment of judgment.

Today it is **Thursday**. it is ruled by **6** Jupiter. As a node-Rahu- representative Jupiter by occupying his sign, take Rahu Dasa.

Now the lagna that is rising in the East is 12 30'. It is Saturn's sign and moon constellation as the time is 6-51 a.m. on Thursday 23-1-1969 at Madras.

Hence, Rahu acting as an agent of Jupiter, Saturn and moon are the signifiers (Star is also Uthrapadra where Moon transits and it is Jupiter sign Saturn star).

Hence you will go overseas during Rahu Dasa Moon Bhukti Saturn Anthra, third week April 1973.

Health

The sub lord of the ascendant denotes whether one can have good health or one is susceptible for diseases and **will** be a weakling. Here the ascendant is 3 42' scorpio. It is in Saturn constellation and Saturn sub. **It** shows that you are a chronic

patient. as Moon and Saturn are conjoined in the constellation of Moon in Taurus in the **7th** house, you **will** suffer from troubles in the throat and intestines. You take **Vitamin 'B'**, **Unizyme** etc., till your Rabu Dasa Mars Bhukti is over as Mars is in Mars **constellation**. as Mars is in 11 also, during Mars Bhukti as the **significators** of **6th** house it will cause disease; as the signifier of **11th**, it will give the cure. Generally people may think that the period when the operation is done especially successfully is a bad period as it causes anxiety. They forget that the operation is the main cause for cure. Only from the time of operation, the disease disappears, normal health is regained. If sowing a seed to bear good fruits is evil then operation is evil. Planets connected with 6 and 8 houses show danger. Planets connected with **6** and **12** show confinement to bed, hospitalisation, isolation etc. Planets connected with 6 and 11 promise ailment followed by **cure**. as Mars indicates disease and cure and since Jupiter Dasa follows, which is not connected with 6th house (to fall ill), you will be cured during Rahu Dasa Mars Bhukti Venus Anthra and thereafter, you will pick up health.

SUCCESS IN MEDICAL EXAMINATION AND VOYAGE OVERSEAS

Medical examination means that one medical officer or more than one medical officer will examine you before issuing a certificate, declaring that you are absolutely fit, that you are not suffering from any bodily infirmity or incurable diseases which are unfavourable for the nature of the work you have to carry out or to go to a foreign country to work **there**, etc. (Luckily, **such** a medical examination is not carried out on either of the sexes before marriage, If such a **bill** is introduced, I am sure many will remain **unmarried** due to congenital diseases like rheumatic heart, enlarged heart, etc.): therefore, we have to examine the **4th** house to know whether there will be the medical examination as you desire; then we have to see whether it **will** be favourable or **not** ! 7th house represents the medical officer whomsoever **he** is and the 10th to the 7th, that is the 4th house, indicates his job which means yourself being examined; the 11th house shows whether you will be given a good certificate to make further attempts.

"Please give a number within **249**."

"**147** comes to my mind, Sir."

"What is the time now, please ?"

"1-30 P.M., **Sir**".

The following is the horoscope for judgment :

V 8-45-20	VI 6-45-20 Saturn 13-36	VII 0-33-20	VIII 0-45-20
Rahu 26-19 IV 6-45-20			DC 2-45-20
III 2-45-20		1-30 P.M I.S.T. 10-10-1969 at Delhi	X 6-45-20 Ketu 26-19 Venus 27-43
Mars 18-37 II 0-45-20	Lagna 0-33-20	XII 6-45-20	Mer. 6-05 XI 8-45-20 Moon 10-33 Jup. 23-01 Sun 23-30

The **4th** cusp falls in Aquarius 6 45' 20", that is, it is in Rabu star and Rahu sub. Rahu is not conjoined with any planet but it is aspected by Venus who is the signifier of the 11th, the 7th and the **12th**. Therefore, Rahu as the signifier of the **11th** will allow you to appear before the medical officer for the medical **examination**. as Rahu is in Saturn sign, you have to appear more than once, since Saturn gives success after a few attempts or examination.

Disease indicated by 6th; danger by 8th; defect by 12th. Here, 12th house is not occupied by any planet but Venus is its owner. Therefore, if at all, there is any defect it should be in the vision especially in the left eye, since Venus is in the constellation of Sun and sub of Moon; really, there should be something wrong with your eye. But luckily Sun, Moon and Jupiter are in the 11th house. Moon is in its own constellation and Sun. It is in 11; Jupiter is in the constellation of Moon in 11 and sub of Sun 11. Sun is in the 11th house, in the constellation

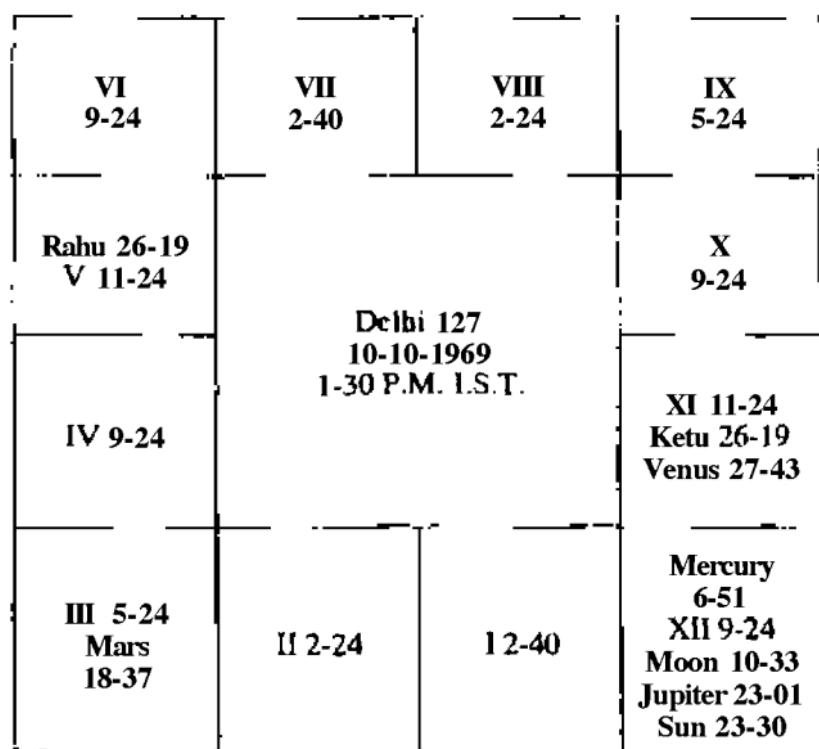

of Mars and sub of Rahu. All planets are connected with the 10th and 11th houses. Therefore, even though there is the defect in the eye, yet you will get through the medical examination and your desire will be fulfilled.

"Will I go overseas"? (Horary)

"Number 127."

It means the lagna will be in Libra and its exact position will be 240° in Libra.

The other 11 cusps are calculated and are shown in the horoscope given below :

The houses 3, 9 and 12 are to be judged to find out the significators for going overseas ; and the sub lord of the 12th cusp is to be judged to find out whether you will go at all to a

foreign land. The 12th cusp falls in Sun's star and Venus sub; Venus is in the constellation of Sun, sub of Moon; both Sun and Moon are in the 12th house; Venus is to give the results of the lord of the constellation Chandra which is in 12. Hence both the lord of constellation and also the lord of the sub are connected with 12th house. Hence life in a foreign place is sure; you must

As regards the significators of 3, 9 and 12, **the** 3rd house is occupied by mars. 9th house is unoccupied; and **12th** house is occupied by Moon, Jupiter and Sun; when you find out the significators, it will be seen that Sun is in the constellation of Mars and Rahu is in the constellation of Jupiter and Jupiter is in **the** constellation of Moon; whereas, Venus and Mercury are in the constellation of Sun. Thus majority of the planets are connected with the 12th house indicating that you must go.

"Then when" is the next query.

At the time of the judgment, Moon Dasa balance is 9 years, 7 months, 2 days. Now Moon dasa Moon Bhukti is operating; in **that**, you will get pass, visa, etc., during Moon dasa Moon Bhukti Mercury **anthra**, that is after 7th November, 1969 and before 22nd December, 1969; your journey will be during Moon dasa Moon Bhukti **Ketu** Anthra. Ketu is occupying Sun's sign, Venus star; it is conjoined with Venus. Therefore, Ketu is stronger than Venus and it has to give in its sub period, instead of Venus. Therefore, Moon Dasa, Moon Bhukti, Ketu Anthra. You must go. **That** is within 10th January, 1970.

Ruling planets:- Today, it is Venus day, Friday. Virgo sign is passed by Moon; it is owned by Mercury; star is governed by Moon, and according to the horary horoscope also these three planets are **the** strongest significators and so your going to

foreign is certain. You will leave Delhi on 28th December, 1969, early morning. It will be a Sunday and the star also Aslesha ruled by Mercury in Moon sign. The lagna will fall in Purvashada Nakshatra which will be at the time of Sun rise. According to transit, Sun will be in Ketu star Mercury sub ; Moon in Mercury star, and Ketu will be in Venus star Sun sign.

Thus the two numbers which you have given one for medical examination and the other for stay in the overseas, promise success and fulfilment of desire.

LABOUR PROBLEM

"Can I have peace of mind ? While applying for a job, the servants commit in writing" I shall carry out the orders of my superiors to their entire satisfaction. I am your most obedient and faithful servant etc.". After some **months**, they join the union, lead it and shout "Down with the Boss", "**the** officer must quit" and so on. It has come to a stage that the life of the boss is in danger. He cannot walk into his own office and enjoy my freedom. "This is my situation" says an Industrialist.

So, to find out when the officer can enjoy peace of mind and the subordinates will carry out the instructions, will be disciplined and will run the show with peace of mind, having their enthusiastic co-operation, one is to judge in the following manner.

Servants are indicated by the sixth **house**. when once the union is **formed**, one is to **take** the **7th** house to represent the union as the proprietor is to transact with the **union**. a few **subordinates** will continue to obey whereas a few **will** disobey. This is shown by 6th house.

fulfilment of the desire of the union is indicated by the 5th house; loss to the boss is shown by 5 and 12. Union loses its claim if the houses 6 and 11 operate, as it will be the 12th and 5th to 7th house.

Let us take an example :

The following is the horoscope of a gentleman who is running a show; let **us** judge why he has to face troubles now and

find out when it will be over. It was running peacefully all along.
The strike has come up nowadays.

Ketu 27-37 IV 4-50	V 5-50	VI 4-50	VII 0-54 Moon 5-04
Uranus 15-8 III 1-50			VIII 0-50 Venus 3-10 Neptune 21-39 Mars 23-20
II 0-50	28-2-1921 1-53 P.M. I.S.T.		IX 1-50 Sun 11-48 Mercury 16-43
Lagna 0°-54'	XII 4-50	XI 5-50	Jupiter 1-13 Saturn 2-24 X 4-50 Fortuna 24-10 Rahu 27-37

Mars Dasa balance 0 year 10 months 3 **days**. entered into Saturn Dasa Moon Bhukti on 4-6-1967. Jupiter sub sub period will operate from 20-11-1967 and **6-2-1968**.

Union is shown by the 7th house. It is occupied by Moon. No planet is found in any of the three stars Rohini, Hastham and **Sravanam** governed by Moon. Hence Moon indicates the union. Moon is the opponent when it fights or claims more like a partner in a business whereas the union, while co-operating is similar to wife. (7th house denotes wife and also partner in business).

Will the union cause troubles or will it co-operate? Union will **non-co-operate** if the significator of the **7th** house is connected with **12th** house. Moon in 7 is in the constellation of Mars who owns the houses 5 and 12 : Mars is lord of 6 and **11** to 7th house and is in the **8th**. Therefore during Moon **Bhukti**, there should be trouble through the union especially during the sub sub periods of Mars and planets or node in the constellation

of Mars, i.e. Rahu in Chithrai. These sub periods continue to run till **20-11- 1967**. Therefore there should be worry, headache and suspicion.

Next sub sub operiod is ruled by Jupiter who is in the constellation Sun, lord of 9 in 9 and is in the sub of Rahu. 9th house indicates the Government and Sun also denotes Government. Therefore the Government, i.e. the labour Department will interfere and as Jupiter is in the sub of the node in the **10th** house, favourable orders will be passed and the servants **will** realise the truth.

Normal conditions **will** prevail when Mercury sub sub operates in Jupiter's sub period, i.e. after **13-12-1967**.

Discontentment and lack of enthusiasm will be found in the servants, again, during Satum sub sub period between **6-2-1968** and **6- 5-1968**.

Thereafter, Mercury sub sub will once for all end the troubles. Smooth running and satisfactory progress will be enjoyed from **6-5-1968**.

According to Western system, aspect of Jupiler **to the** 6th house and Venus in the 8th house show that the **servants** will be faithful. Hence one can expect the sub ordinates to be reliable and helpful during Jupiter and Venus periods. The same ruler of 6 afflicted by Mars brings trouble and the servants will not behave alright during Mars and Venus conjoined periods. Mars spoils.

FOREIGN ASSIGNMENT

Birth of a native at Bangalore on 14/15-11-1917
Wednesday/Thursday at 21 Leo Lagna. Horoscope submitted is
as follows :

		Jupiter 15-38	Kelu 10-45
Uranus	Jupiter dasa Balance	Neptune Saturn 21-42	
	3 years 11 months 12 days		
		Mars 17-31	
		Lagna 21°	
Venus 15-48	5-48		
Rahu 10-45	Moon 0°-2'	Sun 29-19	
	Mercury		

Q.1. Any foreign assignment?

Judge houses 2, 6, 10, 11 for **promotion**. the significators must also be the significators of 9 and 12

No planet is in 2 or 6. **But** in 10, **Ketu** is posited in Gemini.
None in 11.

Ketu also indicates the second and 11th house matters, as it is to represent Mercury who owns the houses 2 and 11. **Ketu** is the lord of Aswani, Makha and Moola. **Rahu** is in Moola.

Lords of 2, 6, 10 and 11 are Mercury, Saturn and Venus. **Saturn** is in Mercury star. **Mercury** is in **Saturn** star. **Saturn** will give the results of both the 12th and the lord of 6, aspecting houses 2, 6 and 9. **Satum** is a strong signifier for foreign assignment. **Venus** has Mars in its star and it is also posited in its own constellation. Yet **Rahu** conjoined with **Venus** is stronger.

Mars is lord of 9. It is in 12 and it is in the constellation of lord of 10.

Moon is lord of 12 and is in the constellation of the planet in 9.

Therefore **Rahu**, **Saturn**, **Moon** and **Mars** are the strong signifiers.

At the lime of birth **Jupiter** Dasa balance was 3 years 11 months 12 days.

So, from 27-10-1964, **Venus** Dasa is running.

To fix the time, note the ruling planets at the moment of judgment. Now the lagna is in Sravanam star on 13-11-1967 and the constellation occupied by Moon is Uthrapadrapada ruled by **Saturn**.

Therefore **Moon** Bhukti **Saturn** Anthra **Rahu** shookshma will give the foreign assignment. Neither of them is retrograde. So, it must happen. The actual time will be between 23-1-1970

and 6-2-1970 : mostly on **31-1-1970** you will have a foreign assignment with increase in income and improvement in Status.

Q. 2. Any change in the immediate future?

As you are at present running Sukra Dasa Sukra Bhukti upto **27-2-1968**, Ketu anthra will operate from **17-12-1967**. Ketu is in Gemini. It indicates the results of Rahu and Budha : Therefore you will be given additional work, greater responsibility and additional charge. It means that you will be, as usual carrying on with our present nature of work and you will be asked to take up some other work also. Rahu behind Venus, Mercury in the 12th sign to Venus may suggest a change according to traditional system. But, it is not a change, as long as you are attached to the original work also.

During Sun Bhukti, which is in the constellation of Jupiter in the 9th house and Sun occupying a movable sign indicates change in the nature of work during Venus Dasa Sun Bhukti Jupiter Anthra in July 1968. This change is only in the nature of allotment of the work. Only during Venus Dasa Moon Bhukti, as mentioned above, promotion and foreign assignment are indicated.

Wife's health: Uranus in 7 : Nervous and arthritis. Lower abdominal region surgical aid ?

7th house shows wife : 6th therefrom indicates **ailment** : 8th danger : **12th** hospitalization. 6th is occupied by Saturn : It owns the 12th house and aspects the 8th house. Mercury, lord of 5 and 8 is in Saturn star. Therefore wife's health is afflicted by Saturn and Mercury i.e., the houses 1, 5, 8 and 12. Saturn shows chronic ailment and wearing out of the system indicated by 5 and

8 houses due to Mercury. Hence generative system and the rectum are affected.

Cure is indicated by the planet in 5 to your lagna which is 11 to the 7th. Venus is in its own star and is in 11 to 7. Venus Dasa started on 27-10-1964. So, at once, you had it operated and attempted to give a cure. (Date of operation, November 1964.)

When Venus Dasa Sun Bhukti (in the constellation of lord of 11 to 7) Jupiter anthra operates i.e., from July 1968, she will have good health.
